Under new OPA instructions, the amount and type of gasoline rations issued to individuals after June 30 are now available to the public or newspapers upon inquiry to local rationing boards. OPA has removed new inner tubes from rationing, thus helping conserve tires, inasmuch as good tubes properly inflated prolong tire life. Producers, carriers and handlers of farm products have authorized and urged to form committees to assist Office of Defense Transportation district managers in putting to full use all motortrucks available for transporting farm products, ODT says.

Mustard Harvest In 25 days from seed after planting you can be harvesting Tendergreen, a variety of mustard which produces large green leaves which, like Swiss chard, can be cut from the plant without disturbing the root, to be followed immediately by another crop. There are several varieties of mustard, maturing in 30 to 40 days, which are popular for greens. They have a pungent flavor which is especially popular in the southern states, where greens have been a dietary standby for generations. Most of the mustards will keep bearing until frost.

That Nagging Backache May Warn of Disordered Kidney Action Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the living blood. You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!
