

### Marine Corps Veterans Attack Saipan

Marines spearheaded the attack on heavily fortified Saipan and suffered the major share of casualties. Typical scenes, recorded by Marine combat photographers during the first few days of landing, show the beachhead; Leathernecks washing at a captured reservoir; a gutted American tank; digging in for stands on the beach; and farther inland a mortar crew in action—and last, a final farewell to fallen comrades. Saipan, like Tarawa, exacted a heavy toll on the Marine assault forces, who after the initial landing never took a backward step.

### Guadalcanal Fish Fry

### CEILINGS ON USED FARM EQUIPMENT

Regardless of who the seller may be, OPA now has established ceiling prices on the following items of used farm equipment—farm and garden tractors (except Track-Type); tractor-mounted mowers—including semi-mounted (power take-off driven) mowers; combines; corn binders; corn pickers; hay loaders; manure spreaders; side delivery rakes; and a combination of any of these items with other items of farm equipment specifically designed for mounting thereon, where the combination is sold as a unit.

### Robt. G. Woolcott Promoted to 1st Lt At AAF B-25 Base

AT A 12TH AAF B-25 BASE—Promotion of Robert G. Woolcott, 23, of Cottage Grove, Oregon, to the rank of First Lieutenant has been announced at headquarters of the Twelfth Air Force in Italy.  
Now serving as a bombardier in a combat-seasoned medium bombardment group of B-25 Mitchels in the Mediterranean theatre, he went overseas in March 1944.  
The Cottage Grove bombardier's present organization flew as a member of the Allied bomber and fighter-bomber team that helped break the stalemate on the Adolph Hitler line below Rome. Shattering attacks on viaducts and rail and road bridges virtually starved the enemy of supplies and enabled the ground forces to thrust him back far above Rome.  
This veteran B-25 group was cited recently by the War Department for outstanding support of the British Eighth Army in Tunisia and Sicily, and the American Seventh Army in Sicily. It also flew many missions against targets in the Balkan countries.  
Lt. Woolcott's parents, Mr. and Mrs. Arthur Woolcott, reside at Cottage Grove, Oregon.

Word has been received from June Addy, daughter of Mr. and Mrs. S. A. Bolton, that she has arrived in Ft. Des Moines, Iowa for her training in the Air Wac's.

### Leaned Early

High in world fame is a certain bell tower in northern Italy which would be little known if it were not for its very noticeable tilt. Galileo studied gravitation by dropping weights from the 179-foot top of the Leaning Tower of Pisa. Now 14 feet from the perpendicular, it started to lean even before its completion in the mid-14th century.

### Toughens Egg

As high temperatures toughen the egg and lower the food value, best results are obtained when the egg is cooked at a low, even heat.

### Warped Skillet

Are you having trouble with a warped skillet? Here's the remedy. Heat slowly for 10 minutes, turn upside down and place a piece of wood over the entire bottom. Hammer on the wood until the skillet is flat. If the bulge is toward the inside of the skillet, hammer on the inside. To prevent warping, do not pour cold water on a hot skillet.

### Rubbing Dear

If the bottom edge of a door rubs, tighten the upper and lower hinges with a screw driver. If this doesn't cure it, install a third hinge halfway between the two and sand the bottom edge with fine sandpaper. Un-sightly nail holes can be filled with patching plaster available in small quantities at a paint store. Scrape out all loose plaster with a knife and follow directions on the container.

### Mere Alloys

In 1918, only one out of every 25 tons of steel produced was alloy steel. In 1943 almost one out of every six tons produced was alloyed.

- Other . . . . .

YOU who contribute to victory in this real American way, deserve a salute. Preserving precious foods at home is an essential Citizen Soldier activity true to our traditions of thrift, of cooperation, of constructive fighting against a destructive foe.

America's farmers, and victory gardeners, will produce in 1944 the greatest amount of food in our country's history. None of it can be wasted—all of it will be needed for our fighting men and women, our allies, the liberated countries and ourselves. In this invasion year, less canned fruits and vegetables than ever will be available for civilians.

Help food fight for freedom in your own home by canning all the fresh produce possible from your victory garden, or from your market by wise in-season purchases. And to prevent waste, know your canning methods. Write for free booklets to your State Agricultural College, or, United States Department of Agriculture, Washington 25, D. C.
