### SUGAR STAMPS

Sugar Stamp No. 33 in war ration book four will be good for buying five pounds of sugar beginning September 1, 1944. Willard Case, district OPA food rationing representative, announced Saturday.

Like other sugar stamps now being used, Stamp No. 33 will be valid indefinitely. Stamps now good for five pounds each are No. 30, No. 31 and No. 32.

Sugar Stamp No. 40 is good for five pounds of canning sugar through February 28, 1945.

It is the policy of OPA to validate a sugar stamp every 2 1/2 months.

### News Briefs

**NEWS BRIEFS OF INTEREST**  
**LONDON.**— German and neutral sources speculated Wednesday on the possibility of another allied landing in southern Europe, probably in Yugoslavia.

Radio Ankara said a landing was expected in the Adriatic, which includes Albania as well as Yugoslavia, while a Berlin dispatch in the Stockholm newspaper Tidningen said the allies probably would open a "fifth front" soon in Dalmatia.

**LONDON.** Inspired by the allied invasion of southern France, French resistance forces estimated at more than 500,000 armed fighters rose throughout the nation against the Germans Wednesday and first reports said they had captured at least nine towns and were fighting inside six others.

German garrisons at Moutiers and Bourg St Maurice were completely wiped out in fierce fighting, the nazi garrison at Erdevant was killed or captured, and near Paupol 1500 Germans were surrounded by French patriots bent on getting revenge for four years of oppression.

**LONDON.**— The Germans went all out Wednesday to hold Warsaw, throwing gigantic tank and infantry forces into counterattacks northeast of the old Polish capital and forcing the Russians out of the town of Ossow, seven miles from Warsaw's contiguous suburb of Praga.

**PORTLAND.**— A shipment of 6000 tons of Argentine corn will be imported by the northwest through the Commodity Credit corporation for use by feed mixers, Leon S. Jackson, secretary of the Oregon Feed and Seed dealers, said yesterday.

Twenty four hundred tons will be used in Oregon, the remainder in Washington, he said.

Washington.—Return of the nation's prewar standard of living must await the defeat of Japan, despite official estimates that production of civilian goods will climb to the 1939 level after Germany's surrender it was emphasized yesterday.

### Egg Storage

Since the egg's freshness is lost quickly at ordinary room temperature, a nutrition consultant says they should be stored in a cool place at between 45 to 50 degrees and away from strong smelling foods.

### Warped Skillet

Are you having trouble with a warped skillet? Here's the remedy. Heat slowly for 10 minutes, turn upside down and place a piece of wood over the entire bottom. Hammer on the wood until the skillet is flat. If the bulge is toward the inside of the skillet, hammer on the inside. To prevent warping do not pour cold water on a hot skillet.

Weed control specialists who have investigated the origin of some of America's worst perennial pests report that Canada thistle was introduced from Europe at Montreal, Canada, by Burgoyne's army; that bindweed or morning glory came from some unknown source in 1850; that Russian knapweed came in with imported alfalfa and sugar beet seed in 1900, and that whitetop arrived from Europe and Asia in 1890 in alfalfa seed.

### ATTEND MILLER RITES

A number from here attended funeral services for Edward W. Miller, prominent Eugene resident, held at Eugene yesterday afternoon and five members of the local Masonic lodge of which Mr. Miller was a member, served as pall bearers. Martin Anderson, a former resident also served as a pall bearer. Others from here who served included Max Lard, C. O. Anlauf, Worth Harvey, L. J. McCoy, Albert Woodard.

Mr. Miller served several terms in the state legislature and at one time operated a hotel at Grants Pass.

### DON HELLIWELL NAMED DISTRICT CHIEF OF LIONS

Don Helliwell, Roseburg, has been appointed deputy district governor of Lions clubs, according to announcement made by Robert M. Fischer, Jr., Eugene, recently named district governor. The new district officers are now active, having taken over their duties following the international convention in Chicago last week.

### ARMY WANTS MEN FOR COLLEGE

**OREGON STATE COLLEGE.**—The U. S. army is starting a campaign to encourage enlistments by 17-year-old boys in the Air Corps Enlisted Reserve corps, for later participation in the Army Specialized Training Reserve program at colleges. The ASTRP unit here now has 226 men enrolled, with 110 more soldier students in the advanced engineering course.

**THINGS TO COME.**—Dehydrated pineapple for convenience and economy in making pastries and pie fillings. . . . An improved cotton picking machine, developed by International Harvester company, which is said to pick clean and not leave any useable cotton in the bolls. . . . A mechanical tree planter which requires a crew of only three men to plant 2,000 seedlings an hour. Perfected at Wisconsin College of Agriculture, the device may revolutionize reforestation activities.

### Vary Griddle Cakes

Griddle cakes can be varied by adding fruit like blueberries or finely chopped apples or pineapple to the batter before mixing. Other interesting variations are possible by using different types of flour or cereal meals such as cornmeal, buckwheat flour, soybean flour or whole wheat flour.

### Xmas Mailing For Servicemen Sept. 15 to Oct. 15

"Save strong string and box material and start to plan shopping," Postmaster General Frank C. Walker advises Americans in announcing the rules for mailing of Christmas gifts for army and navy personnel overseas.

This year the Christmas mailing period for both army and navy overseas forces is the same -- September 15 to October 15. After October 15 no gift parcel may be mailed to a soldier without the presentation of a written request from him.

The great demands upon shipping and the need for giving preference to arms, munitions, medicine and food is the prime reason for the early mailing date. Moreover, gift parcels must travel great distances to reach army and navy personnel who are located at remote points, and frequently the transfer of large numbers to new stations necessitates forwarding of the packages and additional time is required. Among the more important rules for Christmas mailings to the armed forces overseas are the following:

The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked "Christmas parcel" so that it may be given special attention to assure its arrival before December 25.

Not more than one parcel may be mailed in any one week to the same member of the armed forces by or in behalf of the same mailer.

When combination packages are made up of such items as miscellaneous toilet articles, hard candy, soaps, etc., the contents should be tightly packed so that they will not become loosened in transit and damage the contents or the cover. Hard candies, nuts, caramels (including those covered with chocolate), cookies, fruit cake, and chocolate bars individually wrapped in waxed paper should be enclosed in inner boxes of wood, metal, or cardboard.

Perishable goods, such as fruits and vegetables that may spoil, are prohibited. Intoxicants, inflammable materials such as matches or lighter fluids, poisons, and anything that may damage other mail are prohibited. Gifts enclosed in glass should be substantially packed to avoid breakage. Sharp instruments, such as razors and knives, must have their edges and points protected so that they cannot cut through the coverings and injure postal personnel or damage other packages.

Relatives and friends who know that the personnel in the armed services to whom they plan to send gifts are at far distant points should begin to mail their packages on the opening day -- September 15 -- of the mailing period. Last year late mailings, causing concentration of great numbers of packages in the final days of the mailing period, threatened to defeat the program. It is stressed that success can be assured, with the limited personnel and facilities available, only if the public gives full cooperation through prompt mailings of the overseas gift parcels from the opening of the mailing period.

Lt. Tom W. Cox was recently awarded the Purple Heart award at Pearl Harbor for wounds received in action on the island of Saipan. Lt. Cox is still in a naval hospital at Pearl Harbor where he is recuperating from shrapnel wounds.

### "BRAVERY ALONE IS NOT ENOUGH"

"Bravery alone is not enough to win battles" declared Gen. A. A. Vandergrieff, commandant of the marine corps in urging youths of pre-military age to return to high school this fall. "To have bravery without knowledge is to be only half prepared. If you have been employed in the factory or on the farm this summer you should plan to go back to high school this fall. We in the marine corps feel you can best serve your nation and your fellow men at school, now, building the sound mind in the sound body."

The cost of preventing and fighting forest fires--not counting the trees destroyed, property damaged and lives lost -- ranges between \$25 million and \$30 million each year.

## They are patient about waiting

because those Long Distance calls mean so much

A soldier has to line up for a lot of things but we don't like to see him wait too long for a Long Distance call.

Would you mind helping a little by saving the wires from seven to ten for the servicemen?

That's when thousands of soldiers rush to the telephones at the camps and we'd like to give them first call on Long Distance.

## This is an oil filter

You'd think that clean oil, inside a sealed engine, would keep fairly sanitary. But not so.

As it circulates, it picks up more assorted grime than a bunch of fifth grade kids playing commando.

So oil must be cleaned, or the scratchy stuff it picks up would be carried into close-fitting places where it would be about as beneficial as a cinder in your eye.

Like the kitchen strainer sketched above, the oil filter's job is to trap and hold unwanted lumps and things. And like a strainer, it eventually gets so clogged up that it can't function.

That's why Shell people occasionally urge you to buy a new oil filter cartridge . . . to keep your car from joining the parade of 5000 junkers that are scrapped every day. We don't want that to happen. We love you.
