## WHAT ELSE THAT YOU BUY HAS GONE DOWN SO MUCH?

Even the war news would be overshadowed if tomorrow's papers carried the headline "Cost of Living Tumbles 40%." Actually, from the beginning of the last war to the start of this one, the cost of living has increased by approximately that amount.

In the past 30 years, while other things climbed, the average cost of fire insurance has been reduced by more than 40%.

The reason is that fire prevention services maintained voluntarily by leading insurance companies have steadily reduced fire losses. And these savings have been passed along in lowered insurance costs. After fire losses, taxes and other necessary expenses have been paid, but before Federal Income Taxes, less than 22 2/3 cents of the average premium dollar remains.

### ARMY NEEDS NURSES IMMEDIATELY

The Army needs 4,000 nurses immediately, Paul V. McNutt, Chairman of the War Manpower Com-

mission reported last week. Men wounded in battle must have adequate care no matter how quickly the war ends, he pointed out in deploring the fact that nurse recruitment had slowed up along with a growing belief that the European war is about over. The WMC chairman urged inactive nurses, especially in outlying communities to return to nursing duty.
