TO PRODUCE MORE JOBS...

"We must see to it that the job-producing enterprises of America are stimulated to produce more jobs. We must see to it that the man who wants to produce more jobs is not throttled by the Government—but knows that he has a Government as eager for him to succeed as he is, himself."

Thomas E. Dewey
Philadelphia, Sept. 7, 1944

Erase Your Sinus Ailment With Chiropractic

In acute sinus ailments, there are pain and local tenderness in the upper part of face and above the eyes, and in severe cases there is some degree of fever. There may be an almost constant discharge of mucous from the nose, or there may be a so-called 'post nasal drip' through the back of the mouth. In chronic cases the discharge from the sinus may be thick and stringy, plugging up the duct, or dried mucous may be discharged from the nose and mouth.

The cavities which we call the sinuses are located in front of the skull, having openings for drainage and ventilation with the nose. These cavities are lined with mucous membrane.

Disease of sinuses is known as sinusitis, an inflammation of the mucous membranes lining the sinuses. Chiropractic care has proven to be most effective in dealing with this condition as it deals with the seat of the trouble—the congestion of the membranes.
