We don't like to say "no"

If you are waiting for a home telephone, we think we know how you feel. You'd like a telephone now, not weeks or months from now. And we'd like to install it for you now.

But so long as the needs of war have first claim on telephone facilities — and until the manufacture of adequate equipment can be resumed — it just won't be possible to avoid delays in filling telephone orders.

Meanwhile, we are finding an attitude of co-operation and understanding on your part that is genuinely appreciated by all of us.
