AS LONG AS MEN DIE, WE CAN'T AFFORD TO QUIT

The worst thing about a war is the terrible waste, waste of men's lives, waste of manpower and waste of material resources, but as long as our boys fight and die we can't afford to quit.

Since 1941 there have been many rumors going the rounds as to inefficiency, waste and graft. Some are true, others are not, but it's come to the point where the average individual does not know what to believe when he hears it. Perhaps it's a good thing we don't know the truth in some instance, otherwise we would remain angry all the time, which would lessen efficiency.

Recently the statement was made that all the salvage tin was used for was to make tins to ship beer to the servicemen. What we don't know about tin would fill several volumes, but we would question this statement. At the beginning of the war we were told how tin was salvaged. We know that it has an important function at home in coating the can containing food and that as long as community canneries as well as commercial canneries operate tin will be needed to preserve the can. We've been told too that bombers require at least seven pounds of pure tin, that tin is used in the medical containers for the servicemen, that flares used by downed fliers contain a good portion of tin, that portable flame throwers use tin as well as "syrettes". These are just a few uses of tin. We can't import any more.

LEARNING BY EXPERIENCE

"The year ahead," says the Farm Journal and Farmer's Wife, "will afford striking material for thoughtful farmers to consider. Wartime restrictions have reached into every day of every one's life. Farmers have taken rationing, price ceilings and floors, and all else in their stride. Agreeing that some controls are to be expected in wartime, farmers have seen that none has worked too well.

"... Agricultural price policies, for instance, have been affected by the political demands that cost of living be held down. Farmers have seen such policies defeat their own ends by creating scarcities where plenty was possible, and by setting up black market prices instead of fair prices. Watching the ponderous efforts of government to meet the rapidly changing situations of these months ahead, farmers will have a chance to estimate how much government they want in their affairs when the war has passed.

"Sound social advancements require, always, time and tolerance."—President Truman.

"Nobody can think straight who does not work. Idleness warps the mind. Thinking without constructive action becomes a disease."—Henry Ford.

Race Fan—What is meant by horse sense?
Jockey—It's what keeps a horse from betting on people!—Pomeroy (Wash.) East Washingtonian.

Industrial Accidents
Among manufacturing industries, the explosive industry has the second lowest accident frequency rate, reports the U. S. department of labor. It is topped only by the ladies' garment industry.

Glue in Horn Piths
Contrary to popular belief, the hoofs and horns of animals do not yield glue. But the piths of the horns are good sources of raw material.

Improve Rations
Emergency rations include milk products to improve taste and food value.

Ornamental Shrub
Chokecherry is one of the most ornamental of the large shrubs.

Dives Into Foxhole, Teeth Keep Going

IWO JIMA (Delayed)—Perhaps the strangest "casualty" reported in the invasion of this Pacific isle just 750 miles from Tokyo, happened to Marine Staff Sergeant John R. Richards of Columbus, O.

In the confusion of the D-Day assault, Staff Sergeant Richards lost his false teeth.

The 38-year-old Marine, who gave up a desk job in Washington and volunteered for overseas duty a year ago, jumped into one shell hole so fast that the molars kept on going.

In Richards' own words, he was "out but not down" and he stayed in the fight, reports Staff Sergeant David Dempsey, a Marine Corps combat correspondent.

New Germ Killing Lights Now In Stock

Yes they are here. Germ killing lights may sound far-fetched, but they have been tried and endorsed by physicians and others. The heart of the germ killing lamp is the Germicidal lamp which resembles a fluorescent lamp in dimensions and operating characteristics, does not have powder coating on inner tube, but does have costlier glass which is efficient in transmitting ultra violet rays direct through the tube.

The germ killing lamp is not a cure; it's a preventative by destroying air-laden germs.

OUR DEMOCRACY by Mat

THE DAY'S WORK—THE MORROW'S RESOURCE

A FULL MILK SUPPLY AND THE BUILDING UP OF A HARDY PRODUCTIVE HERD FOR THE FUTURE ARE DEPENDENT UPON THE REGULAR AND GENEROUS FEEDING AND SYSTEMATIC CARE WHICH THE FARMER GIVES TO HIS CATTLE.

LIKewise, THE PRODUCTIVENESS OF OUR ECONOMY AND ITS RESOURCES FOR FUTURE GROWTH ARE DEPENDENT UPON THE REGULARITY OF OUR WORK HABITS AND UPON OUR SYSTEMATIC PRACTICE OF THRIFT—PUTTING PART OF OUR EARNINGS ASIDE FOR THE FUTURE IN WAR BONDS, LIFE INSURANCE AND SAVINGS ACCOUNTS.

AMERICAN HEROES by WOODY COWAN

A SILVER STAR for gallantry in action has been awarded to Pfc. Julius Aschenbrenner, Pinckney, Mich. Although a member of a light machine gun section and therefore only armed with a pistol, Aschenbrenner advanced with several riflemen under heavy fire to knock out a machine gun position in New Guinea. He helped still the enemy fire. Men like that must have weapons, food and clothing. The War Bonds you buy and hold will provide them.

JUVENILE HEARING HERE LAST NIGHT

E. A. Britton, new juvenile advisor of Eugene, was down last night and held a hearing with six boys, wards of the juvenile court, who are on probation, following theft of money from a local theater several months ago. Present at the hearing also were Guy Smith, police chief, and several members of the youth advisory board.

Royal Kingship
Members of the House of Coburg of Germany made so many marriages among the royalty of Europe that their princes and dukes were said to have made kingship a career. Leopold became King of the Belgians, married the daughter of George IV of England; Ferdinand wed the Queen of Portugal, was regent of the kingdom; Ernest turned down the crown of Greece; Albert married his cousin, Queen Victoria of England. Earlier, one of the Coburg women had become England's Duchess of Kent and mother of Queen Victoria.

Bread Slicing
For bread slicing use a sharp knife—or a special notched bread knife if you have one. For a smooth cut slice, use gentle pressure when you cut back and forth—the sawing motion does the cutting. Most people press too hard and squash the loaf out of shape. For those who slice loafed there are wooden cutting guides.

Asparagus Stalks
The flavor of the butt ends of the asparagus stalks is not sufficiently good to warrant canning them. The more tender portions, however, when cooked in the boiling water left over from the canning process are satisfactory for immediate serving or for soup. Overmature stalks are also good for soup.

Milk Quality
Clean, sterile utensils, prompt cooking of milk or cream, and keeping milk and cream cool until marketed are key factors in maintaining high quality.

Choice Lots and Acreage FOR SALE

We are offering for sale 40 choice lots and some acreage for sale in a new residential district north and east of the Union High school. Some of the lots are located on Tenth street, others on Woodard avenue to be opened and improved. Lot sizes 66x152 feet. A discount if two or more lots are taken. Acreage can be subdivided to suit purchaser.

Mosby Creek

Mrs. H. C. Bostick has returned home from a visit to California where she visited her three sons and families, Clifford, Jim and Jack Bostick.

Mrs. Leo Dugan and son Danny of Portland visited last week at the Lee Dugan home at Walden.

Neta Anderson has gone to Eugene to work in a lunch room.

Mr. and Mrs. Donald Horne and nephew Fred Cook of Bay Center were dinner guests Friday night at the Harry Castle home. Mr. Horne is a nephew of Mrs. Castle.

Cpl. Bernice Patten of Quantico, Virginia, is home visiting her mother, Mrs. Fanny Patten.

Those from here attending the bridal shower in Cottage Grove at the home of Mrs. Haworth, honoring Betty Lou Bradford, were Mrs. George Woodworth, Mrs. Ivan Morris, Mrs. Berta McGuire and sons and Mrs. Harry Castle and grandson Larry Lancaster.

Cpl. Ivan Patten of Ft. Canby has been home on a 3-day furlough. Cpl. and Mrs. Patten have a new baby daughter.

Sergeant Franklin C. Black of the Philippines is home on a 30-day furlough.

Beverly Munsell is visiting relatives in Vancouver, Washington.

Tec. Sergeant and Mrs. John Eastburn of Mt. Home, Idaho, spent two days furlough at the Lynn Eastburn home.

Mrs. Drury and daughter Silvia Sue of Amarillo, Texas, are visiting at the home of her brother and family, Mr. and Mrs. Lynn Eastburn of Walden.

Mr. and Mrs. Fred Lane have returned from Idaho where they went to visit a son who has been in the army.

Mr. and Mrs. Roy Kennedy of Cottage Grove were dinner guests Sunday at the George Hastings home.

Mrs. Mable Howard and Patsy and Luella Simms of Corvallis visited over the week end at the Ben Anderson home at Blue Mt.

Eugene Anderson, Mo.M.M., has been transferred to San Pedro, California and has been assigned to a new ship.

Lt. R. Safley Makes Perfect Score Sunday In Regular Shoot

Lt. Rodney Safley shot a perfect score in the regular Oregon State Guard practice shoot Sunday, scoring fifty out of a possible 50 shots at a distance of 200 yards. The regular shoot will continue Sunday. All members of Company A are asked to be at the armory at 9:30 sharp, so the shoot can be over by 12:00 m.

At the shoot last Sunday several made scores of 49, 48 and 47.

LIBRARY REPORT

Mrs. Nellie Hamant, librarian, has submitted the following report for June for the local library. Of the 1158 books loaned, 738 were adult fiction, 103 adult non-fiction, 202 children's fiction and 115 children's non-fiction. Thirty-nine new books were purchased while 12 were discarded. Twenty-five new borrowers' cards were issued. A total of \$21.09 was received, \$12.34 of which came from fines and \$8.75 from the rental shelf.

Milk Cows
The number of milk cows on farms in the U. S. last year averaged almost 26,000,000 head, about 300,000 more than in 1943.

TEN COMMANDMENTS OF "GOOD POSTURE"

1. Stand tall. 2. Sit tall. 3. Walk tall and "chesty" with weight transmitted to the balls of your feet. 4. Draw in your abdomen, pulling it back and up. 5. Keep your shoulders square and high but not hunched. 6. Pull your chin straight back toward your collar button. 7. Flatten the hollow of your back by rolling your pelvis down and back. 8. Separate your shoulders from your hips as far as possible. 9. Lie tall and flat. Sleep tall. 10. Think tall.

DR. H. A. HAGEN

MORE HAY HANDS NEEDED THROUGHOUT ALL OREGON

A shortage of from 750 to 1000 able-bodied men to help in Oregon's hay harvest is estimated by J. R. Beck, state farm labor supervisor. Every county in the state reporting to the farm labor office in the O.S.C. Extension service indicates shortages ranging from a small number up to as many as 150 hay hands.

The recent period of unseasonably hot weather which has caused the hay to cure much faster than normally, plus lack of baling equipment in some areas, have added to the problem of getting hay hands, it was indicated.

The highest wages ever offered for haying are now being paid in every county in the state, Beck said. Prospective hay hands may get a job through any county farm labor office.

HILL-KING WIN TWO-BALL FOURSOME

The usual two-ball foursome at the local golf course Tuesday evening resulted in a low score of 42 by Earl Hill and Mrs. Merle King. Next lowest shot was Belle Burkholder and Curtis French. The runner up scores improved with cooler weather.

Eighteen golfers enjoyed a bountiful repast at the club house. A birthday cake for Mrs. Frances Hunter was baked by her daughter, Miss Carol Hunter.

The next regular two-ball foursome will be Wednesday, July 25, instead of Tuesday, July 24, to avoid a conflict with the annual Masonic-Eastern Star picnic.

LUTHERANS TO SHOW "YOUTH FOR THE KINGDOM"

Under the auspices of the Cottage Grove Lutheran church a unique religious sound motion picture film, "Youth for the Kingdom," will be shown on Thursday, July 26, at 8:15 p. m. at the S.D.A. church building, West Main street. The picture points to three things: the contrast between the Christian and non-Christian home, the agencies of the church to assist the home, and one type of special service to reach the unchurched. The public is cordially invited to see this interesting picture. A free-will offering will be lifted to help defray expenses.

'CALL ME JOE'

YONTAN AIRFIELD, Okinawa (Delayed)—A first lieutenant, adjutant of a Second Marine Air Wing night-fighter squadron, admonished the Leathernecks with

a bulletin board notice to refer to officers by rank, reports Sgt. Claude R. Canup, Marine Corps combat correspondent.

That night a Jap air-borne suicide squad landed on the airfield. A guard jumped into the adjutant's foxhole, and in a none-too-low voice exclaimed excitedly: "Lieutenant! Japs are on the field!"

The adjutant just as excitedly replied: "Don't refer to me as a lieutenant! Just call me Joe!"

New Saginaw Mill Is Making Test Runs

The new mill of the Zumwalt and Williams Lumber Co. recently completed at Saginaw has been making test runs the past week and is expected to step up production as rapidly as adjustments are made. The mill will have a capacity of 30,000 feet daily and will employ about sixteen men, if run to near capacity. Ten men are employed at the present time.

Venus Fly Trap
The Venus flytrap, which antedated man's steel trap by millions of years, is abundant, but it strangely occurs only within an area not more than 75 miles from Wilmington, N. C.
