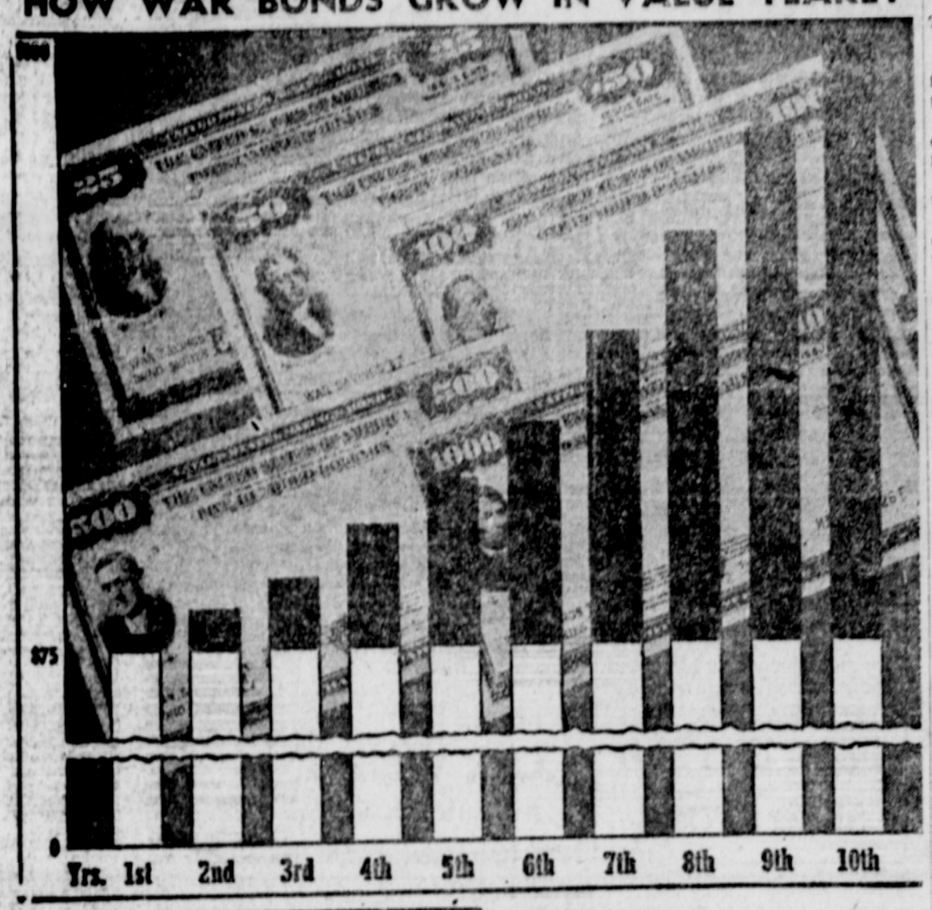
HOW WAR BONDS GROW IN VALUE YEARLY



Yrs.	Increase In Value	Total Value	% of Worth the Yr. Before
1	$ 5.00	$ 755	.67%
2	10.00	765	1.32
3	15.00	780	1.96
4	20.00	800	2.56
5	20.00	820	2.50
6	20.00	840	2.44
7	40.00	880	4.76
8	40.00	920	4.55
9	40.00	960	4.35
10	40.00	1,000	4.17

IT'S SURPRISING—how War Bonds grow in value each year. If held until maturity they earn 33⅓ per cent and they have a yearly added value. The chart tells its own story for a $100 Series E Bond. The scale to the left shows how a $1,000 Series E Bond grows. The chart shows that the increase in value is greatest in the later years of the bond's life. Note how the rate of interest goes up in the second three years of the bond's life. Study the increase in the $1,000 bond. Holders of bonds the last few years, considering the above, would literally be throwing money away to cash them prior to maturity. The New York Stock Exchange in the more than 150 years of its existence has never recommended other bonds than those of the United States.

SLIP COVER REMNANTS TO FIND USE ON FOOTSTOOLS

Homemakers who have made slip covers for furniture had material left over so frequently that home economics extension leaders at Oregon State college have introduced a project for using such remnants as covers for upholstered footstools. Miss Lois Lutz, extension home management specialist, has just held the first county demonstration on footstool making in Umatilla county.

Representatives of 11 groups attended the first demonstration meeting and learned the process so they can repeat it in local demonstrations in their own communities. Jennie M. Warren, home demonstration agent and Mrs. C. E. Fish, chairman of the county council, will cooperate in extending the project through the county.

A mimeographed circular giving illustrated instructions for upholstering footstools is available in county extension offices whether formal demonstrations are held or not.

DYES TRANSFORM COTTON SACKS INTO DRESS GOODS

Availability of feed sacks on farms, made of good quality cotton material, has led to the introduction of a project not active for many years in the home economics extension program in Oregon. This is a project on dying and tinting, which Miss Lucy Lane, extension specialist in clothing at Oregon State college, demonstrated in Coos county recently. Miss Lane put on a demonstration for 21 regional leaders in the county who will in turn repeat the demonstration before their own local groups. She included a demonstration on dying woolens and rayon as well, using a new all-purpose dye for the latter. Mrs. Cecelia Van Winkle assisted in the demonstration and will be in turn assisted by Mrs. Lloyd Davenport, county home extension chairman, in continuing the project in the county.

The project can be extended to other counties if demonstrations are requested by the county home extension council. A mimeographed circular containing the instructions on dying given by Miss Lane is available free from any home demonstration agent.

NEW EARLY POTATO FAVORED

Pontiac, a new variety of potatoes in Michigan, made a fine impression on its first appearance in Oregon this year, reports E. R. Jackman, extension specialist in farm crops. In Malheur county 100 acres were planted with this new potato, replacing Bliss Triumph. Both varieties are of the round, red type and both are early, but the Pontiac is higher yielding, has a higher percentage of No. 1's and is injured less in digging. The table quality of both potatoes is high. Malheur farmers plan to extend Pontiac acreage as quickly as they can get dependable seed.

AMERICAN HEROES

by WOODY COWAN

INVESTING in War Bonds with their increase in value each year judged against the courage of Lt. J. L. Knight, Weatherford, Texas, 124th Cavalry Reg., seems insignificant, but it helps supply our fighters with weapons. Facing heavily defended Jap positions on the Burma road, Lt. Knight led his men through dense jungle and secured their objective. Reconnoitering the area, he found himself in a horseshoe formation of concealed Jap pillboxes and threw grenades, destroying four. Wounded, he saw that those in his command were protected until he died. A medal of honor was awarded Lt. Knight posthumously.

U. S. Treasury Department

Farmers Have Less to Worry Them This Time

Washington, D. C.—Farm prices stand at 266 per cent of the 1909-1914 average—higher than the prices of 1918—and will drop again but not as sharply as in 1921 because the Government is required by law to maintain support prices of at least 90 per cent of parity for two full calendar years following the year in which the war ends, The Department of Agriculture has announced.

The announcement indicates the farmer will not be a victim of a drop in prices similar to that which followed the last war in 1921 when prices hit the low of 115 per cent of the May, 1920, level which was 235 per cent of the 1909-1914 level. Thus the farmer will have more money than after the last war.

War Finance Committee officials said that in addition to the maintenance of the price level for two years, that non-farm families already have, and are accumulating, weekly savings through the Payroll Savings Plan of the War Finance Division of the Treasury. This, they claim is proof the non-farm front will be much better able to support itself than after the last war during the normal lull of reconversion. Buyers of farm products will have the money to buy, it was said, and farmers should avail themselves of the opportunity to acquire War Bonds during the Victory Loan so as to have the money with which to modernize and handle the non-farm market demands that will be backed with cash to pay sustained prices during the two years after fighting ceases.

The Payroll Savings Plan has sold $18,000,000,000 in War Bonds to wage earners, that great bulk of non-farmers who will, if need be, enjoy the fruits of their savings in the reconversion period and have the cash with which to support themselves.

Secretary of Agriculture Clinton P. Anderson adds that "prosperity of the farm depends primarily on purchasing power in the city."

CHRISTMAS SWEETS MADE WITH SUGAR STRETCHERS

Christmas traditions of homemade sweets may be observed in spite of sugar shortages by the use of sirups, honey, dried fruits, and other sugar extenders, says Lucy A. Case, extension nutritionist at O.S.C. A variation of old fashioned sugarless molasses taffy combines with mint in a delicious product. A new method of combining dried fruits, chopped nuts and honey or sirup produces a delectable variety of Parisian sweets.

Excellent crackerjack for the youngsters or oldsters can be made with molasses and a small amount of sugar. Brittle chocolate taffy can be made from dark corn sirup and a small amount of brown sugar.

Recipes for these sugar saving sweets, including a new marshmallow made with fruit, are given in a new circular HE 1927, "Sugar Saving Christmas Sweets," which is available free at all Extension service offices.

CONCISE SUMMARY OF ALL BUSINESS TRANSACTED BY THE COMMISSIONERS' COURT FOR OCTOBER, 1945

Ordered that 30 deeds be made for county owned properties for the total sum of $46,225.15.

Ordered that 3 offers be rejected for county owned properties for the total sum of $800.00.

Order for vacation of alleys through block three in Glenada.

Order terminating appointment of Howard M. Brownell, as Justice of the Peace.

Resolution to accept deed and establishing road.

Order appointing Chester W. Anderson, Deputy District Attorney.

Order granting dance hall license to Gordon B. Coffey "Willamette Park."

Order appointing Edgar N. Davis, Constable for Mapleton District.

Agreement between Lane County and Rosboro Timber Company.

Order vacating part of second street in Veneta.

Order canceling taxes on two tracts of county owned property.

Order establishing Geo. H. Place Road.

Order cancelling county warrants more than seven years old.

Order granting dance hall license to Elmer Mallory "Idylwood Hall."

Order granting power pole franchise to John & Lou Ellen Stalder on Sears Road.

Order recommending issuance of 9 liquor licenses.
