Grangers Grow Social Crops that benefit all Oregonians

THE GRANGE and its members have been the educational and motivating spirit which has brought into being a large percentage of the more than 200 farmer-owned and operated cooperatives in Oregon. During 1944 these did a business of $105,000,000—37% of Oregon's cash farm income.

Cooperative projects are as vital a part of Grange activities as better agriculture itself. That is why 28,000 progressive farmers belong to the Oregon State Grange—why membership continues to grow—why the Grange is a dominant force for social progress.

Information about the purpose and accomplishments of the Oregon State Grange is contained in a booklet "Let's Look at the Record". Contact your local Grange for copy, or write direct.
