CRESWELL

Creswell is doing her bit toward contributing to the polio fund. The H. S. Traxler office has been made headquarters for any contributions for this worthy cause. The H.E.C. ladies grange club sent in a contribution last Tuesday. Proceeds of the McKenzie-Creswell basketball game Friday evening also were turned in. Churches and other organizations are following suit.

Due to the unusual extremely heavy fog that night, making driving on the highway hazardous, only 50 patrons attended the Creswell Consolidated telephone annual meeting at the grange hall. H. A. Howe was asked to preside. Discussions followed, and was found that a change of by-laws had to be made before directors could be elected for certain terms. Another meeting will have to be called. A committee to revise the by-laws was appointed, these be-

ing board of directors, H. A. Howe, E. E. Allen, M. O. Wicks, W. Land, Raymond Grant, E. F. Roberts, and W. Ogram and Earl Benton.

Mr. and Mrs. G. A. Bryant returned last week from a visit with their son Lieut. Forrest Bryant and family at Chicago. The son is at Great Lakes Naval Training school.

Moss Circle met last Saturday evening and a number of out of town guests attended, and a Mrs. Matthews was reinstated. Visiting guests were Mrs. Etta Brown of Springfield, Mrs. C. Leabo and Mrs. J. Woodson of Cottage Grove, Mrs. Nettie Parsons of Eugene.

Cpl. Eugene Turner of Louisiana was a guest of Miss Mary Louise Stone at the R. W. Stone home last week end.

Mr. and Mrs. William Taylor bought a home in Corvallis and have moved there the past week. Mr. Taylor plans to take a course in forestry at Oregon State college.

Mr. and Mrs. G. A. Bryant left last Friday for Forest Grove to attend the funeral of Mr. Bryant's mother.

Dinner guests at the home of Mr. and Mrs. Clarence Jackson last Thursday evening were Mr. and Mrs. David Francis, Mrs. Olive Partin, Mr. and Mrs. Chas. Wetzell and Mr. and Mrs. H. S. Joslin.

Special evangelistic services at the Christian church are announced to begin Sunday, January 20 to continue for a week. The public is invited and special music will be a part of each service. Ralph Holcomb will be the speaker.

The W.S.C.S. met last Wednesday afternoon at the Methodist annex, with 25 members and a number of guests attending. Guests were Mrs. E. Purch, Mrs. Hill, Mrs. Elliot. The W.S.C.S. also voted to contribute toward the polio fund, and a clothing drive was planned for the overseas needy.

The Presbyterian Aid met Wednesday afternoon at the manse. There were 24 members present. Mrs. Gillispie and Miss Dorothea Gillispie were hostesses. They planned a drive also for clothing for over-sea nations.

Mrs. Dora Martin moved to her home in town last week and the Frank Clacks are busy moving from their farm home to the Martin home they bot of Mrs. Martin recently.

Home Economics club met at the grange last Tuesday with 32 members present at their first of year gathering and the new officers presiding. Aunt Fannie Goudie joined and there was one guest, Mrs. Chas. Ingram. Reports were given by those who attended the state conference at Santa Clara last week.

Of interest in future, will be an exhibit table at each grange meeting, where each member is free to bring new articles of interest either made by themselves or that they think of interest or a help to members. The club has adopted a scrap book record also as advised by the state economic officer at the conference. There will be a contribution to the Alice Marie home at Eugene, with Mrs. C. I. Kent in charge. The club collected \$3.57 at the meeting that was turned in toward the polio fund. Mrs. H. S. Joslin is caring for the little baby Borden several hours daily. The professor's daughter is doing fine and gaining nicely.

At last! Harvey Road has emerged from its hiding place. We are wondering what has finally brot this famed place to light again. But glad to hear from there and look for further contributions. The trouble with his chickens prompts us to wonder under what place he would list one of our hens—one that has set, determined, and undaunted by solitary confinement, threats, and frequent court martials. She tucks all the eggs she can find under motherly wing and clucks contentedly. Must be the Emily Hen back from the Virginia. Well at least she is not digging up the writer's flower garden—but the moles are!

Mrs. Hazel Clack of Eugene was a Creswell caller among friends

one day last week. She also was a special dinner guest at the H. Traxler home.

We read with pleasure the compliments to the Sentinel by Free Methodist church. Every word true. Having sent the Sentinel to our home town back east in Southern Minnesota, came back the comment—"That's a mighty fine paper you are writing for. It's so clean and fine in its whole make-up."

Githens Advises Care for Machinery

It will take several years for farmers to obtain all of the new machinery needed for replacement and expansion, states Floyd Githens, Ferguson System dealer here, in sounding a warning on winter care of the tractor and implements with a view toward longer wear.

He pointed out that all manufacturers are rushing tractors and various types of equipment to dealers everywhere as production increases, but that the serviceability of machinery now in use can be maintained by the following helpful suggestions:

Give the engine a chance to warm up before racing the car in cold weather.

Keep the battery clean, the terminals greased, the cells filled with clean distilled water. The charge in the battery should be maintained by running the engine or taking it to a service station for re-charging when the tractor is not in use for some time. Never store the battery on a concrete floor or in a damp place.

Mr. Githens suggests that a hot engine be allowed to cool gradually before filling with cold water. In freezing weather, let the engine cool off a bit before draining the water.

Slow starting in cold weather may be caused by too heavy crankcase oil, frozen water pump, water in the fuel system, moisture in the distributor, or dirty spark plugs.

The following steps are advised for tractor storage: store tractor in shed or some other sheltered place; drain entire fuel system and cooling system; remove the battery for proper storage, and relieve the tires by elevating the tractor on blocks.

A coat of paint not only improves the looks and serviceability of the tractor, Mr. Githens states, but the machine will work better and last longer.
