Here's what those new

Chevron signs mean to you

When the Chevron sign goes up over a gas station, you know the dealer is an independent businessman in your community. You see, lots of folks appreciate the friendly, personal brand of service they get at independent stations but they don't always know they are "home-owned." So the new Chevron sign and the distinctive burgundy, cream and green paint job is the way we've taken to drive that fact home to folks around here.

We want to be sure our customers get the best—and you just can't beat new Chevron Gasoline, RPM Motor Oil and all our other fine accessories and services.

We'll be happy to honor Standard of California's Chevron National Credit Cards, too. Incidentally, those Credit Cards are mighty handy to have around—so if you don't already have one, we'll be glad to take your application any time you're in the neighborhood.

REMEMBER...the same products, the same service, the same folks to serve you
