**ONE ROAD TO PROSPERITY**

Henry Ford once said that the only way to prosperity and better living conditions was through the creation of new wealth and the observant is inclined to agreement with this statement. We have had a lot of schemes advanced the past twenty years for the creation of more for all, but these have either fizzled or have been promptly forgotten. Many present day proposals call for nothing more than dividing up what wealth we have. Some if properly administered may be beneficial, but over the long pull, its new wealth which places our living conditions on a higher plane.

Not long ago we heard a man say he walked out on a strike some twenty or twenty five years ago and stayed out for four or five months. Although this man has worked hard, he said he had never made up for time lost. He simply scratched the experience off as a bad one. We have had numerous occasions to think about what this man told us in recent months, since we seem to be living in an age when strikes have become an epidemic. There are lots of things the public would buy now if it could, but many of the needed things are not being made. We wonder if twenty years hence many of the present day strikers won't look back on the opportunity to create new things the public wants and could not buy because of the strikes, as time wasted.

The dinner started with cream of tomato soup. The main course was a giant rib roast, with mashed potatoes and broccoli. Soft rolls of white flour were served, with two patties of butter to a plate. Dessert was apple pie with ice cream. There was coffee with cream and sugar. The speaker cleared his throat, "We are a bankrupt nation..." he began.—Lincoln (Neb.) State Journal.

The so-called clipping bureaus are springing up on every corner. If you get a notice that some clipping bureau has an interesting item about yourself, which they will part with for two bits, the chances are that its been taken from a local paper.

The motoring public is facing a shortage about which they know little and this shortage is lead which goes into gasoline according to press reports. It could reach the point where it might seriously hamper our transportation.

**Boy's Room - Modern Style**

A couple of young roughnecks would have to work pretty hard to mar these walls, batter the furniture or soil the bedspreads in the durable bed-sitting room shown above as pictured in the May issue of House Beautiful magazine. Walls and curtains are fabric-coated in "Koronaal"—dust-resistant, stainproof and washable. Chairs and desk are low-ash oak. Rough dark green carpet and box spring beds covered in the same color corduroy won't show soil or scuffing.

er would you. Remember the Golden Rule. For sake of the beauty of the trees, please don't pile rubbish at their feet. Only God can make a tree, don't spoil His handiwork by throwing broken bottles, rusty cans, and piles of ugly rubbish at the base of a tree. Remove all rock and dirt from excavated graves. The sexton does not have facilities to remove same, and will not do it even if paid extra. We will be glad to aid you, if you will pay the price of removal. If Eugene can raise \$3000, we should be able to raise \$300, which is more than we have ever had yet to clean the cemetery, for one year. Don't delay. Send or do your share. Thank you. Remember we can only do work for which we are paid in advance. Belle Burkholder, Secy. Cottage Grove Cemetery Assn. Cottage Grove, Ore. P. S. If we have overlooked any one lot in the past, for which we were paid, remember we are but human and do make mistakes. Don't worry the distant lot owner with the details, tell us and we will take care of them or refund money.
