### Lumber, Priority-Free, Available Soon to Public

Priority-free lumber will be available to the public in considerable quantity from dealers' and distributors' stocks, Fred H. Brundage, western log and lumber administrator for the Civilian Production Administration, said yesterday at Portland.

A new CPA regulation directs all sawmills to allocate 50 per cent of their production to house-constructed lumber, he said—a boost from 40 per cent—but any produced in excess of that may be sold without priorities.

This, he said, should free about 25 per cent of dealers' and distributors' supplies for sale to persons lacking priorities. Its principal effect, he said, would be to ease restrictions on small jobs and repairs.

Douglas fir mills with facilities for producing only timbers and planks may appeal to the Portland office to obtain exemption from the housing-construction lumber requirement.

Seasoning will be required under a rule change which says that lumber "will not be considered as produced until seasoned for the customary period," he pointed out. Previously green lumber was moved from the mills.

Mills and distributors must hold their production until the last day of the month before selling to uncertified buyers, Brundage said.

#### LOAF-OF-BREAD PRICE INCREASED ONE CENT

The price of that elusive loaf of bread advanced a penny yesterday with OPA approval.

The increase is effective immediately, along with a price boost of one cent a dozen for bread rolls.

The higher prices apply to all kinds of bread except rye, which went up two cents a loaf April 30.

Prices are being raised, OPA said, because bakers' production costs have climbed as a result of a 25 per cent cut in the amount of flour they may use. The reduction was ordered to help meet famine relief requirements.

### INFORMAL CHARM

Photo courtesy New York Dress Institute

For the bride's attendant, or even the bride who plans to wear a long dress but not a train and veil, one New York designer has fashioned the filmy white dress shown above. Made of marquisette with the neckline low and rounded, the dress has a detachable panel puffed in tiers down the back, and repeating the sleeve treatment.

The majority of this season's bridesmaid's dresses are styled similarly to the bride's, and are as appropriate for Summer evenings as for the special occasion for which they were designed. Some of the favored colors are lemon, delphinium blue, pale pink and turquoise.

Howdy Folks: Next Sunday is Father's day. You know what a modern father is. He's a man who's wired for cash.

In that connection, many a father is suffering from a touch of the sop.

Anyone who ever gave the right size shirt on Father's day would have a fit.

We heard of one father who claimed that bad weather conditions didn't affect the crop of wild oats in the least.

Of course it's all right to grow a crop of wild oats so long as you don't have them threshed out in court.

Father and sons, both like to see our lighting fixtures.

We have a lot of women customers, too. Why can't we have a talk with you, if you're not all ready a customer?

**Attend High School**  
Only 24 per cent of the children of normal high school age were actually attending high school in the United States in 1930, according to the Encyclopaedia Britannica. By 1920, 24 per cent were going to high school, and the percentage is now much larger.

**Onion Flavor**  
You can impart onion flavor to potato salad by dropping an onion into the pot when boiling the potatoes. Some onion fanciers put an onion in the pot no matter what vegetable they are cooking.
