**CURTIN**

Born to Mr. and Mrs. Eldon Thompson, of our community on Friday, June 19, at the Sacred Heart hospital, another boy. This makes three husky sons.  
Mr. and Mrs. Willis Booher and family are living in the Harry Holt house near Creswell, with their two little folks, while the Harry Holt family are away on a vacation trip to Alaska. Willis is helping the boys at the mill keep things going.  
For the last four or five weeks the radios in this valley have been almost useless, due to a loud roaring noise, which covers most of the dial. It is particularly hard on Grandma Allison, who, being so much confined to the house, uses her radio more than most. We hope the electric power people will soon remedy the trouble.  
Mr. and Mrs. Littlepage have sold their farm, the old Watkins place north of Curtin, to the Haericks of Los Angeles, Calif. They had a sale on Sunday which was well attended in spite of the unusual heat, and our informant says prices were uniformly good from the seller's point of view. We understand that Mr. and Mrs. Littlepage, Sr., will move soon to the ranch they have purchased in eastern Oregon, but that young Mrs. Littlepage and her two boys will remain in their home until their husband and father returns from the army, with which he is now stationed in Korea.

We hear that there is some hitch in the proposed sale of Shady Brook, the Medina's place, and the deal may not go through after all.  
The pool made by the concrete dam at the Goins place was a rendezvous for most of the young folks of the neighborhood, and for some not so young, until the last few days, when Albert Goins developed a case of mumps, which kept folks away. He was quite ill, but is now rapidly recovering.  
It sounds very interesting to have beavers in the nearby creek, but when they cut down first a beautiful mountain ash, and then a large silver maple which keeps the afternoon sun from the house, you decide that they definitely are not proper backyard pets. Beaver are becoming much too numerous both in Pass and Bear Creek.

**"MY! HOW YOUR CAR HAS GROWN!"**  
Just in the ten years from 1930 to '40 average horsepower of cars increased 99 per cent! That means a lot tougher job for motor oil. And that's why RPM Motor Oil has extra ingredients to solve all the problems of today's high-powered engines — problems that a straight mineral oil just can't handle. These compounds in RPM Motor Oil end carbon trouble; protect hot spots that other oils leave bare, exposed to wear; prevent corrosion, sludge, foaming. Try it!
