Mostly Static

By "Shorty" Smith

Howdy Folks; There's no place like home, especially if you haven't the money to go out.

Of course you do have to take into consideration the fact that the novelty of married life does wear off.

There was the party who believed in free love. He hadn't supported his wife in three years.

Most men keep their wives because it's the supporting thing to do, though.

Of course it isn't always love that enables married couples to get along. Sometimes it's just good common sense.

And it's good common sense to buy our lighting fixtures.

The proof of the pudding is in the eating. Why don't you try it?

Report to people who are waiting for telephone service.

From V-J Day through June 30, the number of telephones in service has been increased by 277,000, of which 206,000 were added in the first six months of this year—an unequalled increase for any corresponding period in the history of our company.

Thousands of additional telephones are being installed each month but there is still a tremendous job to be done. The Pacific Coast is continuing to grow at a rapid rate and new applications for service have been pouring in at double the rate of the corresponding period a year ago.

But we are rushing the equipment needed to fill all orders just as soon as humanly possible. We are hurrying construction on more than 70 new buildings and building additions, installing new equipment in almost every exchange, stringing thousands of miles of wire.

Your telephone is on the way; we will get it to you as quickly as we can. Thank you for your patience.
