Paraplegic Operates Tractor

There's more to this picture of a young Texan and his tractor than meets the eye. The special left-hand gear shift permits James Qualia, Lubbock, to turn in a full day's work on his farm, although he has been paralyzed from the waist down since his B-24 crashed in Italy. A Veterans Administration approved loan aided ex-Bombardier Qualia in improving and reequipping his farm.

Primitive Agriculture
of Peru are at least 30 years behind those of America. Extension work in Peru is only about three years old and has only 22 county agents. Modern farm machinery is scarce, even still in use for plowing and crops harvested entirely by hand in most cases.
