### ELLSWORTH NOT FOR TAX CUT

WASHINGTON — Rep. Ellsworth (R-Ore) said Tuesday he favored cutting taxes after careful study to see what income the government needs to operate efficiently.

He told a reporter that he did not now believe he could approve proposals for a slash of 20 per cent in income taxes as proposed by some house leaders.

"We should go about handling the finances of the government in an orderly manner," Ellsworth said. 'We should prune down federal expenses to where it will permit orderly handling of the government and when we find out how much will be needed, we should enact tax legislation that will raise that sum of money.

"I have no doubt but that it will allow a substantial reduction in taxes."
