BUT

1. As a private—mind you just a see the hope of getting, a minimum of these four important employment advantages, here's food for thought—then use your own judgment about immediate action.

Men by the thousands all over America are enlisting in the New Regular Army.

BECAUSE

1. As a private—mind you just a private—your starting salary is \$75 per month plus "hidden pay," bringing your pay up to the equivalent of about \$2080 a year. You also get regular automatic pay increases.
2. As a career you have no worry about scarcity of jobs or seasonal layoffs.
3. Normally you receive an annual leave of 30 days, with full pay and allowances.
4. Your retirement income after 30 years service may be as high as \$185.63 per month for life.

These are just four of the many reasons why an enlistment in the United States Army is making sense to thousands of thinking men today. Why not discover all the new advantages to an army enlistment. Just see the Army Recruiting Officer nearest you—he's located at

Post Office Bldg.
