

Hollywood Post To Hold Annual Portland Picnic

Hollywood Post No. 105 American Legion of Portland, Oregon, will hold its annual picnic Sunday, June 29th at Oaks Park in Portland. This is the Sunday following the closing of the state convention. Legion bands and drum corps have been invited and the post hopes to have a drum corps contest and a band contest. The convention completes its work the Saturday of June 28th and therefore many Legionnaires will be able to participate. Hollywood Post invites all Legionnaires and their friends. The guests of honor will be the patients from the Veterans Hospital in Portland.

Hollywood Post will hold open house Tuesday, June 24th at Hollywood Hall, 43rd and Sandy Boulevard in Portland. The meeting will start at 8:00 p. m. Delegates and candidates for office will be given an opportunity to become acquainted with each other. All Legionnaires will be welcome.

Give Aliens the Air
U. S. immigration authorities are using chartered planes to take aliens to points of deportation because they save time and expense. Fewer guards are necessary in airplanes because the only way to escape is to jump out.

June Rainfall Totals 4.13 Inches

June 1947 is on its way to set a new record in rainfall. Up to Tuesday morning the moisture for the first sixteen days of the month measured 4.13 inches against a normal of 1.86 inches. The out of season moisture ruined the early cherry crop, seriously damaged the strawberry crop and damaged some of the early hay. Gardens are also suffering from pests because the wet weather has not permitted dusting or spraying.

Pastures are in the best condition in several years and stock are wading thru knee high grass in most places.

Hunters Increase

Figures for the 1946 season warrant the estimate that 30 per cent more hunters invaded the woods and fields than in 1945 when, despite firearms and ammunition shortages, an all-time high of nearly 10 million licensed gunners was established.

Salvation Army

New York City was the scene in 1880 of the first establishment of the Salvation Army in America. Other countries saw it established later: 1881 in Australia and France; 1882 in Switzerland, Sweden, India and Canada; 1883 in South Africa and Iceland; 1886 in Germany.

WRECKAGE LEFT IN TORNADO'S PATH

WRECKAGE IS ALL THAT REMAINS of a home in Sharon, Pa., after it was hit by a tornado which swept through the town, killing six persons and injuring 125 others. More than 250 homes were damaged or destroyed by the twister. Telephone and power lines were destroyed and farm crops were ruined over a large area. (International Soundphoto)

TWO DROWN IN COUNTY

William A. Dickens, 21, Springfield, lost his balance and, in falling, apparently lost his breath from the impact, and drowned in the mill pond of the Long-Bell Lumber Company Monday, Deputy Coroner Fred Buell reported.

Wilson Anderson, 14, Springfield, drowned in the Willamette river Tuesday when he slipped from a log he was riding while swimming with a group of teen age companions.

Buell reported three boys attempted to rescue the lad, but his terrified struggles prevented them seizing him.

Cow Mine Detector

Metal objects often pierce the cow's stomach, then enter the heart and cause severe inflammation and sometimes almost instant death.

With the bovine "mine detector," the veterinarian passes the instrument over the cow, and if she has any metal objects inside her, it produces a ringing sound in the earphones. Then by surgery, the nails and other objects can be removed.

Hexachloro Cyclohexane Finding Many New Uses

A new insecticide now appears containing 50 per cent hexachloro cyclohexane in a wettable powder formulation suitable for application in a water spray and for further dilution for dust application.

It shows promise for control of cattle lice, many insects of cotton, including aphids, and for certain insects that heretofore have been difficult or impossible to control, including locusts and hoppers.

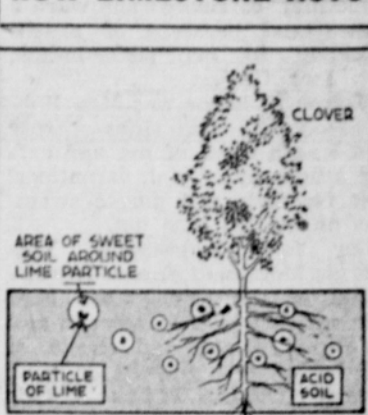

Visual Problems

53 per cent of office employees, 52 per cent of textile workers and 75 per cent of garment workers have visual problems.

From Halls of Montezuma

Since 1775, United States marines have made more than 200 landings on foreign shores.

HOW LIMESTONE ACTS

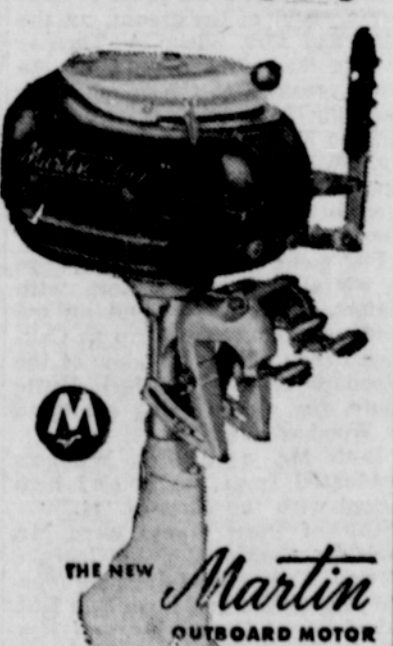

Applications of limestone at the rate called for by a soil test will correct the acidity of surface soils. Lime, however, should be applied from six months to a year before legume seeding to allow time to sweeten the soil.

Disking or harrowing scatters limestone particles through the top two or three inches of surface soils. Then each particle starts correcting acidity in its immediate area. Within a year it may materialize an area of from one-half to an inch in diameter.

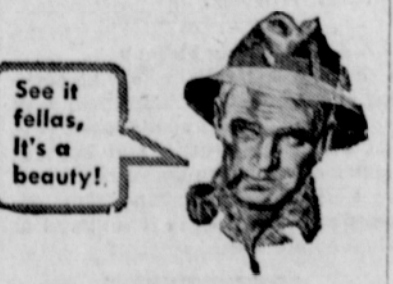

In the beginning, acid soil zones considerably outnumber non-acid areas around the limestone particles. However, if sufficient limestone has been applied and thoroughly mixed with the soil and if lime particles are allowed several months to establish areas of sweet soil, clover will be able to secure lime from the sweet areas. Tests should be made before, not after, liming.

Gauging Cloud Altitudes
An electronic instrument is used at weather stations to measure cloud altitudes.

Now on Display!

Here is the outboard motor that gives you both m-e-a-n-h-o-u-r trailing and breathlessly swift cruising! Instant starting... Virtually flood-proof... Supreme quality... Completely dependable... Sparkling performance! It's easy to lift and a cinch to operate! The secret? Mechanically-controlled poppet valves! They said "it couldn't be done" in a two cycle motor—but MARTIN has done it!

WE ALSO HAVE A FEW USED CARS.

Pupils Entering School Must Have Health Certificates

The Oregon law requires that all pupils entering the first grade next year for the first time, must present a health certificate. These certificates can be obtained from any doctor. All local doctors have student health certificate blanks.

THREE LOCAL STUDENTS AMONG U OF O GRADS

UNIVERSITY OF OREGON, Eugene, June 16 Special)—Three Cottage Grove students who received degrees at the Seventieth annual Commencement exercises Sunday, June 15, at the University of Oregon.

Bachelor of Science degrees were received by Millard F. McFarland in economics and Robert Gerald Mosby in physical education. Mr. McFarland is the son of Mr. and Mrs. J. F. McFarland of 39 I street and Mr. Mosby is the son of Mrs. Marguerite Mosby of Disston route.

Dale Earl McMullin received his degree of Bachelor of Business Administration. He is the son of Mrs. Kittie F. McMullin, 437 Taylor street, Cottage Grove.

STANLEY M. BOSTICK DIES

Stanley Merle Bostick, five months old son of Mr. and Mrs. W. D. Bostick of Mosby Creek died at the family home early Monday. He was born in Cottage Grove, January 22, 1947. Surviving are his parents and the following brothers and sisters, Barbara Jean, Billy and Allen, and his grandparents, Mr. and Mrs. H. C. Bostick, Mrs. Joe Patrick of Grants Pass and C. C. Carver of Baxter Springs, Kansas.

Funeral services were held from the Smith Chapel yesterday afternoon at 2:00 p. m. with Miss Lola Newman, first reader of the Christian Science church officiating. Interment was in the Blue Mountain cemetery.

Gloomy Kitchens

In Grandmother's day kitchens were gloomy things at best. It was the custom to paint everything in dark colors so that the dirt wouldn't show. The idea that a kitchen should be decorative—a thing of beauty—never occurred to her.

Keep Salons Covered

To use part of an onion and keep the cut surface from drying, slip the skin and cut out the portion desired. Then wrap the skin over the left-over part. Wrap the onion in waxed paper to keep odor from other foods, and keep in a cool place.

SAGINAW

The Friendly Neighbors club met with Mrs. June Chatterton Thursday afternoon. There were 15 members present and Mrs. Dale Chapman was a visitor. It being a "little girls party" most everyone came dressed like little girls with their dolls, all day suckers and bubble gum. Mrs. Dorothy Ketcherside won first prize for the best little girl and Mrs. Marie Bash second. In the guessing contest given Mrs. Dora Stewart won the prize. This was the club's last meeting until October, but they will have their annual picnic June 26th at the picnic ground on the Laird place.

A Mountain States Power Co. crew have been busy the past week digging holes and setting up poles to extend the line up as far as the W. Sharon place. About seven houses will put in electricity.

Gail and Terry Chatterton and Michael Gates returned with their uncle, Elwyn Hall and aunt, Mrs. Dottie Gaub to Sprague River, Oregon where they will spend a month with their grandparents, Mr. and Mrs. Ivan Hall.

Mrs. George Getty spent several days last week at Grants Pass attending a postmaster's convention.

Mrs. Inez Monteith is employed at the Blue Moon cafe in Cottage Grove.

Reta Keene spent last week with Tommy Jean Hammons in Cottage Grove. Reta is employed this summer at the Irish-Swartz store in Cottage Grove.

Delmer Benston spent Monday and Tuesday at Ridgefield, Washington visiting at the home of his sister, Mrs. Ed Krebser.

The Bob Bash family and Harold Laird family were dinner guests at the Harry Laird home Sunday.

Herbie Cline has gone to Lowell to stay with his father, Lee Cline. Mr. and Mrs. John Eastburn and daughters of Portland visited Saturday at the home of Mrs. Eastburn's brother, W. Purcell.

Wife Preservers

An old-fashioned remedy for cleaning either a coffee or spice mill after grinding, is to grind a handful of rice through it. Any flavor will be removed.

Thurs., June 19, 1947 The Sentinel, Cottage Grove, Oregon Page 3

Sources of platinum in order of importance are: Canada, Columbia, Great Britain and Russia. Ten inches of snow equals, on the average, approximately one inch of rain.
