Last Sunday, Mrs. Anna Risue, Nettie Gawley, their mother, Mrs. Fannie Goude and Mrs. Jack Davidson made a trip to Sodaville to attend the annual picnic of those who at one time were in attendance of the Mineral Springs cottage there. The picnicers left Cottage Grove in the rain and drove in the rain most of the day. They crossed the Ferry street bridge near Eugene and made the trip on the east side, avoiding the traffic. The roads were bad, full of chuck holes and the holes were full of water. There were fields of grain lying out taking the rain. Quite a bit of difference was found in the town of Sodaville since 1900, the time that Mrs. Anna Risue, Nettie Gawley, Fannie Goude and Jack Davidson moved away. Howdy Folks: We recently read quite an article about the wonders of face lifting by a certain plastic surgeon.

Face lifting may be all right for women, but if a man is at all patient, his will grow right up through his hair.

These plastic surgeons can do almost anything with a nose except keep it out of other people's business.

Of course the earliest known method of face lifting was with a rope.

We have a notion that the face that is lifted by these plastic surgeons falls again when it sees the bill.

Some one remarked that a snob is one who was born with his face lifted.

Some men have such long faces that their barbers should charge them double for a shave.
