ORTHODOX RABBI AT U.N. HEARING ON PALESTINE

CHIEF RABBI OF ORTHODOX JEWS IN PALESTINE, Joseph Zvi Dushinski (left) is shown as he is about to take his seat to testify in Jerusalem before the United Nations Special Committee on Palestine. This is a rare picture as the Hebrew religion forbids orthodox Jews to be photographed.

Sulfathiazole Used Against Calf Scours

Calf scours treatment with vitamin pills or tablets does no good. That's the latest word on the subject from Cornell university. Those in charge of the Cornell work say: "Studies involving approximately 60 heifer calves of various dairy breeds show that supplementing a normal diet with capsules or tablets containing vitamins A, D and E, ascorbic acid, and several of the B vitamins did not reduce the incidence or severity of scours."

Remove 2,4-D Residue From Spray Equipment

Injury to plants, such as stunted growth and reduced crop yields, may result when using spray for insecticides and fungicides which contain 2,4-D residue. The most effective means of eliminating 2,4-D spray residue is with hot water and household ammonia. Rinse the contaminated spray with hot water, then fill to capacity with water under boiling and ammonia, two teaspoonfuls per quart of water.
