## RAY RAMBLES!

The mornings are foggy and cold and the afternoons are very hot. That must mean that fall is here, but I hope not or I have missed the summer or something. We really have been working over here at the mill shipping out a car of alting barley. One thing about the car of barley it made a lot of work for us and a very nice price for the farmers at we shipped it for.

Fall is also time to order that superphosphate to put on the ground before the fall rains get too hard. We have car rolling now so you had better get your order in immediately so there will be no delay in your getting it, for ver half is now sold. We can get nitrogen 33% if you wish. Just place your order and the old flour mill here on south ver road will give you that fine friendly service along with Pride of Oregon Feeds.
