Construction to Start Soon on New Gun Club House

Construction is expected to start soon on the new home of the Cottage Grove Rod and Gun club on the 25 acre site recently donated by W. W. Hileman. The site is located about four miles north of town just west of the B. & H. Airport. Plans for a 24 by 88 foot one story building have been drawn by Robert Drenner, Culp Creek rancher, and are on display at the Edwards Outdoor store on Ninth street.

Shingles for the sides as well as the roof of the building have been donated as well as the nails and members of the club are in a receptive mood for other donations in order that the building may be completed during the summer months.

The building will contain an auditorium, 60 by 24 feet, caretaker's quarters at one end of the building and a kitchen constructed on the other end. An indoor rifle range will be constructed in the attic.

The main auditorium will be used as a meeting place for members and will be thrown open for meetings of the Boy Scouts and possibly other public meetings. Warren Edwards, stated Tuesday.

To finance the projected building, which will be one of the civic assets of the community, the Rod and Gun club must have the support of the community. There are at present 200 members of the Rod and Gun club and the membership committee has set a goal of 500.

BOYDS TO OPERATE DOG KENNELS

You never can tell what an Irishman will do next. The D. D. Boyds of Thornton Corners have recently completed the erection of a dog board kennel in the Irving district about 2 miles north of Eugene on highway 99. Mr. Boyd stated here Monday that the building originally constructed to house fifty dogs had been filled and that plans were underway to build additional accommodations.

Mr. and Mrs. Boyd have their home in the Thornton Corners district for sale and plan to move to the Eugene district, where they have recently remodeled a home.

Fifty-two per cent of the pedestrian fatalities reported in Oregon in 1947 occurred in urban areas, points out the Oregon State Motor Association. Pedestrians were urged to accept responsibility for their own safety by walking safely at all times.

"TYLE-BORD" the Magic Word in HOUSEKEEPING!

"TYLE-BORD" is a magic word to good housekeepers who look ahead. They realize they can have walls in their kitchens and bathrooms that need not undergo annual patching, painting or resurfacing... Walls as easy to keep clean as a modern refrigerator.

Because the plastic-coated surface of TYLE-BORD is baked on, it does not fade or lose its original beauty and luster. TYLE-BORD is always fresh and colorful... always easy to keep clean.

YOUR CAR NEEDS OUR KIND OF CARE

FLYING SERVICE

To give you its best service, your car needs a lot more than "gas," oil, lubrication and air in the tires. But cars today are so remarkably dependable that it's easy to forget some of the things that should be done to keep them in top condition.

Your Helpful Associated Dealer doesn't forget. He's trained not to forget, not to overlook the many "little" things that mean so much to you.

Take "radiator service," for example. With him it's cooling system service. For he knows that the system that cools your car's motor also includes the water

pump, fan, fan belt, fan bearing, hoses and couplings, water jacket, and the water itself. Overheating trouble can start anywhere along the line, so your Associated Dealer keeps check on them all. It is this kind of approach to the care of your entire car that makes Flying A Service the kind of care your car needs.

Always remember this: The better service you get from your Helpful Associated Dealer means better service from your car.

FOR A FEATHER-SOFT RIDE

Extraordinary comfort is but one characteristic of the revolutionary new Federal AIR WING Tire. The AIR WING is an extra low pressure tire that absorbs road shocks so completely as to give you an entirely new kind of riding smoothness. AIR WINGS steer easier, run cooler, last longer, are safer than conventional tires. AIR WINGS are now available at Associated Dealers. See them today.
