When Soles Sweat

There are about 3,000 sweat pores to the square inch on the soles of your feet—one reason foot specialists recommend leather soles, whose fibrous structure permits absorption and evaporation of the moisture.

REALTOR SETS EXAMPLE ON HOW TO WIN FRIENDS

Last week Creswell realtor H. N. Traxler, while looking through unpaid tax records discovered the lot next to Holleman's garage, where oil storage tanks are located, was to be sold for taxes.

H. N., not being the vicious type of businessman who would wait and buy up the property for personal gain, had the lot of state owner notified and paid the tax bill out of his own pocket. The property is valued at approximately five thousand dollars.

Carl D. Monroe, manager of the Eugene office of the Social Security Administration, will be in Cottage Grove Monday, April 19, 1948. Monroe may be reached at the office of the Oregon State Employment Service from 10:30 a.m. to noon.

UNNAMED POEM

By Jeanne Shoop

I wrote a poem once, when I was very young and awoke and rose Upon an early morn to see a crimson burst of sunrise yet propose That I—mere bit of nothingness in this great world, should claim A praise for him above, who made all things less shame.

(If we could raise our eyes and hearts in desire to see The real, true greatness, that He meant for us to be!)

My poor verse ended, after lines of rapture sweet For one sour note of desperation, for lack of words to quite complete

The fullness of my over flowing heart; As oft our lives and deeds do end in failure to express That which we intended well, for ours—or another's—happiness.

By desiring what is perfectly good... we are part of the power against evil, widening the skirts of light and making the struggle with darkness narrower.
