Mostly Static

By "Shorty" Smith

Howdy Folks; The treasury department announces that the average dollar bill lasts only nine months. Not ours, brother. Dollar bills go fast now days, but not very far.

The dollars sign is the "S" that's been double crossed.

The dollar used to do pretty well by itself, but now it has to have a partner.

Famous men get their heads on coins, but most folks would rather get their hands on them.

Anyhow, a nickel is better than a dollar, in one respect. It goes to church oftener.

And in that connection, it is a good idea for any of us to follow the nickel to church more.

Just as it's a good idea for you to try our Gibson Ranges. Why don't you?

BY WALLY BISHOP

He was driving a tea kettle

You know how some people are so unmechanical they can hardly open a door? Well, a man drove in the other day that was just that way. His car was steaming like Old Faithful and he couldn't guess why!

"Look," I said, "your radiator is composed of tiny tubes which run through a series of little fins — like a honey comb. After years of use, rust and scale clog up these little tubes. The engine overheats, the water boils and you've got a tea kettle."

"Can you fix it?" he asked. "Why sure," I said.

"We'll put in some radiator cleaner and you're all set." "Go ahead," he replied, "and while you're at it, I'll take one of those Shell Lubrication jobs I hear about." "Yes, sir," I said.

"Service is my business!" Which it is!

Service is my business
