Northwest Power Dearth Predicted

SPOKANE, Northwest power production will fall short of meeting peak loads this winter from 150,000 to 200,000 kilowatts, a Washington Water Power company official said Saturday.

Marshall Blair, superintendent of operations for the power company, said the peak load for the area has been estimated in excess of 4,000,000 kilowatts and the production capacity is rated at 3,900,000 kilowatts. The total capacity includes 10 federal and private plants participating in the north-west power pool.

Blair said most members of the power pool feel the electrical energy deficiency will not be too serious. "If there is enough rainfall in the area, the pool can be short as much as 200,000 kilowatts and we can still get by," he said.

Cherry Bud Wood Free of Disease Found in Search

Another step in the campaign to provide disease-free nursery stock to Oregon orchardists has been achieved by an indexing device to select clean parent cherry trees from even the latent viruses that do not show on the tree itself.

The method developed by Dr. J. A. Milbrath and Dr. S. M. Zeller, pathologists of the O.S.C. experiment station, is described in a current issue of the American Nurseryman in an illustrated article written by the two scientists.

Some years ago the experiment station, state department of agriculture and commercial nurserymen of Oregon joined in a co-operative project whereby trees free from visible virus effects were selected and registered for the use of nurserymen in getting buds from which to grow nursery stock.

The additional step now involves testing buds from all such trees to see if any of the known latent viruses are present which might show up in nursery stock grown from them.

This is accomplished by taking buds from the apparently clean trees and budding them on two species of flowering cherries that are extremely susceptible to the known latent viruses. If the buds used are from an infected tree they die when placed in these flowering cherry branches or cause other easily detected symptoms. Parent trees that pass the test on the first species are then tried out on the second which reacts so violently that its use is reserved for final testing.

While the visible virus disorders of cherry trees are spread by insects and other means, the latent viruses rarely if ever are spread in this manner, the pathologists say, hence the nursery stock that is free from such disease factors usually remain so.

PLAN WEST GERMAN FEDERATION

DELEGATES REPRESENTING the western zones of Germany are shown as they met in Bonn, Germany, to create a federation of states under American and Anglo-French auspices. A constitution has been proposed which would unite the 46,000,000 people of West Germany, under a unified government. In foreground is Konrad Adenauer, president of the Constitutional Assembly. Behind him are delegates. (International)

DELIGHT VALLEY

Dick Duer came home from the hospital on Saturday after having been confined there for 40 days following an accident in which he suffered a broken leg.

Mrs. Bertha Tait-Button and daughter Margaret of San Diego, Calif. have returned to their home after spending a week at the Malcolm Horn home.

Operations at the Horn gravel bar have been curtailed because of the current hunting season, with most of the men out after their quota of game.

Frank and Sam McDonald and Dave Hite are among the valley residents who are now in eastern Oregon.

Mr. and Mrs. M. A. Horn enjoyed a four day trip to Bremerton, Wash., and points north.

Mr. and Mrs. Russell Wilson and family of Eugene were Sunday dinner guests at the Harve Duer home. They are former residents of the Mt. View district.

M. A. Horn entered the Eugene Hospital on Sunday for observation and clinical tests.

Mrs. C. H. Zumwalt, who has been making her home with members of her family in Eugene for the past three months, was home, in the valley on Saturday.

Mr. and Mrs. Cameron, of Eugene, are staying at the Wm. Turner home while their daughter and son-in-law are in eastern Oregon trying to bag their deer.

Kenneth Zumwalt flew to Ashland over the past week end.

Mr. and Mrs. Max Sears had the pleasure of a visit from Mrs. Viva Lindamood, Mrs. Sears' mother, and Mrs. R. L. Blank, both of Beaverton, and Mrs. P. E. Morgan, of Medford, sister to Mrs. Sears.

Mr. and Mrs. Jim Hendricks of Cottage Grove have purchased two acres from Jim Hemenway and plan to start building in the spring.

Mrs. Ralph Sears in company with her sister, Mrs. Niell Mooney of Coquille, motored to Bremerton Wash. over the past week end to visit relatives there.

Ladies of the Walker Union church met for a potluck luncheon at the home of Mrs. Sherrill on Wednesday and quilled.

Word has been received from Mr. and Mrs. Walter Rasmussen, now of Albany, that they miss their valley neighbors even though they are comfortably situated in their new home.

Mr. and Mrs. Ed Sherrill and daughters were Sunday dinner guests at the Claude Arne home, honoring Shirley Arne on her birthday anniversary. Other guests present were Mr. and Mrs. Snauer, parents of Mrs. Arne, Mr. and Mrs. Henry Snauer and sons of Walden, and Mr. and Mrs. Blue Vaughn of Eugene.

Among the successful hunters returning from eastern Oregon were Frank Stalder with a 95 lb. forked horn buck and Jim Moss of Cottage Grove with his 110 lb., 4 point buck. They returned home Monday morning.

Mr. Paul Schimps of Portland enjoyed the hospitality of Mr. and Mrs. John Stalder over the week end.

Walker Union Church
The next regular meeting of the ladies aid will be held at the church on Wednesday, October 13 with Mrs. Nora Connors and Mrs. Meta Kinsland as co-hostesses. Every member is urged to attend and visitors and new members are always welcome.

You'll find it in the classified. Pages 12 and 13.

Enlist in the BATTLE AGAINST FIRE

● For your own sake, and for the sake of your country, get rid of fire hazards that endanger your home with unsafe electrical appliances ... have them repaired. Clean up any rubbish that might be a source of fire. See that your basement, closets, and attics are clean. Check fuse plugs, make sure they are the right size. It's the job of every American to prevent costly fires!
