

IN JUNGLES OF GUADALCANAL—American infantrymen haul a machine gun cart through tangled terrain in the heroic advance described in the latest volume of the Official History of World War II. In this book it is made clear that the men who fought on Guadalcanal were not only winning an island—they were establishing a pattern for the final success in the Pacific War.—From a sketch on the scene by Sgt. Howard Brodie.

Lime Spreading to Start in August

Lime spreading will begin in Lane county early in August, with the spreading season extending into late September or early October, according to Ernest E. Schrenk, chairman of the Lane County Agricultural Conservation committee.

Present plans of the Agricultural Lime Distributing Company are to schedule shipments to Lane county starting August 8. All farmers who are interested in having the bulk lime spread on their farm should place their order immediately with the Lane county ACA office, Public Market building, Eugene, Oregon.

"Lime orders should be placed with this office within the next two to three weeks to insure proper scheduling of lime shipments from the lime plant at Gazelle, California," says Schrenk. We have also arranged to use the purchase order plan this year, cutting the out-of-pocket cash cost in half as compared with the cash lime cost in 1948.

Using the purchase order plan, any farmer may order up to his liming allowance in bulk lime at approximately one-half the cash outlay required for lime spread on the farm in 1948. The total lime cost will be approximately the same but under the purchase order plan, the government pays the lime distributor part of the cost of the lime and freight at time of spreading. This cannot exceed the program payment for applying the

Four Generations Represented

—Photo Courtesy J. E. Stack

Our oldest resident, Mrs. Elmira (Grandma) Montgomery, who is 95 years old, is shown with her daughter, granddaughter and great-granddaughter, who make four generations in "Grandma's family. The picture was taken at her home on South Third street.

Seated left to right are: Mrs. Elmira Montgomery, great-grandmother, and Mrs. Bert Dawley, grandmother, both of Cottage Grove; standing left to right, Mrs. Jesse Loomis, mother, and Mrs. Ernest Gosme, both of Eugene.

Mrs. Montgomery was born Elmira Purget on April 1, 1854 in Madison county, Indiana, and was

married to Charles Montgomery at Belmont, Illinois, December 10, 1874. They came to Oregon in 1936, settling at Dorena. In 1939 Mr. Montgomery passed away at Dorena, and Mrs. Montgomery moved into Cottage Grove in 1940. She has been a member of the Methodist church since a young woman.

Three of her four children are still living: Mrs. Bert Dawley of Cottage Grove; Ed Montgomery of Denver, Colorado and Albert Montgomery of Covert, Kansas. She has 17 grandchildren; 22 great-grandchildren and five great-great-grandchildren.

lime which is \$5.00 per ton in the valley communities and \$6.00 per ton in the coast and Blachly communities. This amount is then taken from the operator's program earnings when applications for payment are sent in late in the year.

Any operator's liming allowance is \$3.00 times the acreage of cropland and commercial orchard with a minimum allowance of \$30.00. As an example of how an individual farm liming allowance is figured, an operator in any valley community with 50 acres of cropland would have \$150 allowance, which at \$5.00 per ton, would allow him 30 tons of lime that would qualify for 1949 payment. Purchase orders would apply up to this allowance and any ordered in excess would require total cash payment at time of spreading.

For 1949, the cash cost of bulk lime spread within a ten mile radius of valley community unloading points will be \$5.50 per ton with a total cost of \$10.50. Purchase orders account for the remaining \$5.00 per ton. In Blachly community, the cash cost will be approximately \$6.00 per ton for farms 25 miles from the Junction City unloading point with a total cost of \$12.00. Purchase orders account for the remaining \$6.00 per ton.

In the coast community the basic cash cost of bulk lime will also be \$6.00 per ton with the remaining \$6.00 handled on purchase orders. The Valley Lime Company, Gazelle, California, will also furnish bagged lime on order throughout the year. The cost of this lime is \$5.75 f.o.b. plant and the freight

rates to valley unloading points of Cottage Grove, Creswell, Goshen, Jasper, Eugene, Irving and Junction City will be \$3.75 per ton, recent rate increases and federal tax included. Freight rates to Noti, Veneta, Cushman and Mapleton are \$5.25 per ton.

The Lane county ACA office will take orders for bagged lime and forward them to the plant but orders must total 50 tons at least. Several operators may pool their orders and then have the committee handle the pooled order for them. Purchase orders also apply on bagged lime but cannot exceed the \$5.75 cost of lime at the plant. Decidedly better freight rates are obtainable by ordering the 50 ton car.

"All farmers in Lane county are eligible to receive lime under the provisions of the Agricultural Conservation Program and are urged to place their lime order at the earliest possible date," Schrenk said. "Lime order blanks were mailed recently to all co-operators signed in the program and those who haven't been signed in the program should come to the office, sign up their farm, order the lime and find out about the other phases of the program at the same time."

The county committee reminds farmers that not all soils need lime application. However, the way to be sure is to bring a soil sample or samples in to County Agent Bill Parker at the Public Market Building, Eugene, Oregon.

An acidity and phosphate test can be run at the same time and the results, with recommended applications, if needed, will be mailed to you. In planning a lime order, the crop to be grown is quite important. Legume crops on acid soils are very definitely in need of lime, while some of the grasses on the same soil will not obtain appreciable benefit from lime application.

"In figuring tonnage, remember that it is hard to spread less than one and one-half tons per acre and that if a soil is acid at all, one and one-half to two tons is a recommended application," Schrenk advised.

Contrary to popular belief, heavier applications of lime are recommended because losses are negligible and reliming does not have to be done as soon as with lighter applications.

Terne Coating
Terne coating is the applying of a thin layer of lead and tin to sheet steel to make the steel more corrosion resistant.

Cathedral Abbey
There are over 400 varieties of Belmont Abbey in North Carolina is the only cathedral abbey in the United States.

New BELTONE Hearing Aid

CUTS OUT BACKGROUND NOISE!

LET ME PROVE IT!

Think of it! With the new Beltone, you hear what you want to hear—low-voiced conversations in a noisy restaurant or busy office. It's a starting step forward in hearing aid development.

The new Beltone is equipped with this marvelous "noise suppressor." This is standard equipment on the new Beltone, the world's foremost hearing aid. Let me show it to you. Come in and you'll marvel at this dainty, powerful instrument. See how it can slip into your watch pocket or purse—it's no bigger than a pack of modern size cigarettes. No separate battery pack—and NO BUTTON NEED SHOW IN YOUR EAR.

Come in, telephone, or mail the coupon for our new booklet telling what Beltone is doing for the hard-of-hearing. No obligation.

S. C. MITCHELL of 305 I. O. O. F. Building, 45336, Eugene is a member of J. N. Taft and Associates of Portland, who have been serving the hard of hearing since 1934.

THAT'S A VERY GOOD SIGN!

It's the **FRIGIDAIRE EMBLEM**

• This emblem is a good sign for you, because it means so many good things.
It means modern styling, high quality, dependability, long years of unflinching service no matter which Frigidaire product you buy, for back of this emblem is more than a quarter-century of building only the best.

- That's why we sell Frigidaire!
- Refrigerators • Electric Ranges • Water Heaters
 - Home Freezers • Automatic Washers
 - Automatic Electric Dryers • Electric Ironers
 - Kitchen Cabinets • Cabinet Sinks

Come in—won't you? Let us show you the beautiful new Frigidaire products that have this emblem on them. Let us demonstrate them to you. It will cost you nothing and may save you much.

Crisp Cotton

Pink and black resort dress.

By **VERA WINSTON**
PINK AND BLACK checked sheer cotton is the timely choice for a nice day-into-evening dress and jacket for informal summer wear. The frock has a strapless top with crossed-over draped bustline. The skirt is gathered all around. The black velvet belt has a swashbuckle flared end. The tiny jacket is lined in black and has cap sleeves. It closes with three black buttons. This is a good little resort number too.
