Education Costs Double 10 Years

Eugene, July 20 (Special)—Attending one of the schools of the state system of higher education costs about \$750 today, or about double what it did ten years ago, business managers and house-mothers at the institutions say, but residence fees have gone up only 30 per cent. Largest increase has been in room and board, and increase in cost of books is another factor in the rise, managers of the cooperative book stores report.

Room and Board, at the University of Oregon and Oregon State college, is \$503, compared with \$245 in 1939-40. Institutional fees, at the same schools, will be \$127.50 in 1949-50, compared to \$96 in 1939-40. Student expenses are slightly less at the three Colleges of Education, at Ashland, La-Grande and Monmouth, since living costs have not increased so markedly in smaller cities.

These figures are based on dormitory accommodations, and do not include travel, clothing and extra frills. Some students will live more cheaply in cooperative houses (at OSC and the University) or in private homes. Many are working this summer, and hold down part time jobs while in school to pay all or part of their way.

Words of the Wise
Worldly wealth is the devil's bait; and those whose minds feed upon riches, recede, in general, from real happiness, in proportion as their stores increase; as the moon when she is fullest is furthest from the sun.

MAKES A BUSINESS OF BICYCLING

Thousands of Seaside's annual vacationists ride rented bicycles enthusiastically as a beach pastime. Energetic Gordon Shaw in 1933 foresaw this popularity; decided to serve the public's fancy. He quit law school and started his South Prom Bike Shop near the Lewis and Clark turnaround. Business grew slowly, but today Shaw must hire assistants to help meet demands for bikes, tandems, tricycles and baby strollers. Shaw, active Seaside Chamber of Commerce official, also finds time to operate his large "Prom" apartment building. He's a long-time customer of First National's Seaside affiliate, the Clatsop County Bank.

TURNING JUNIPERS INTO DOLLARS

In 1930, Vearl and Elsie Lehrman of Bend began making novelties from Central Oregon's juniper trees. With a gift lathe, powered by their washing machine motor, Lehrman turned out colorfully-grained items of his own design. Today their Western juniper Novelty Co. is in a new building, with living quarters, modern shop and display room. They have mastered the individualistic wood, learned the public's sensitive tastes and developed far-flung sales outlets. "Ours is a product typical of Oregon which First National helped us develop," Lehrman says.

In each case they've made effective use of the constructive services of our First National Group banking offices. We believe that by helping individuals toward prosperity, we help build Oregon—family by family, farm by farm, business by business. Now he's developing an orchard and seed crop ranch in Salem's Walnut Hills district. Jim's wife is his schoolgirl sweetheart, Eunice Johnson—and there are Donna, 6, and Dickie, 3.
