HOUSEHOLD HINT
Removing the selvage from material when making drapes is the "ounce of prevention." If you leave them on, when the draperies are washed they may pucker along the edges, because the selvages are more tightly woven than the body of the material, and won't shrink evenly.

Realty Views

A man lived by the side of the road and sold hot dogs. He was hard of hearing so he had no radio. He had trouble with his eyes so he read no newspapers. But he sold good hot dogs. He put up signs on the highway telling how good they were. He stood by the side of the road and cried: "Buy a hot dog, Mister," and people bought. He increased his meat and bun orders. He bought a bigger stove to take care of his trade. He got his son home from College to help him. But then something happened. . . His son said, "Father, haven't you been listening to the radio? There's a big depression on. The European situation is terrible. The domestic situation is worse."

Whereupon the father thought, "Well my son's been to College. He reads the papers and he listens to the radio and he ought to know."

So the father cut down on his meat and bun orders. Took down his advertising signs. And no longer bothered to stand out on the highway to sell hot dogs. And his hot dog sales fell almost over night. "You're right, son," the father said to the boy. "We certainly are in the middle of a great depression." Let this well-known story serve as a REMINDER when you hear depression talk.
