Examiner Speaks; ASB Poll Reveals

During the student body assembly Wednesday, Mr. Al Peake, who is the state drivers examiner at Eugene, gave a revealing and interesting talk on the causes of most vehicle accidents, and how those accidents could have been avoided. Also included in the talk was some valuable information concerning turns, and accident reporting.

What we are mainly concerned with, however, are the figures that resulted from Mr. Peake's survey. Ninety-one students have drivers license, ninety-two have instruction permits, sixty-six have had no chance to drive or to learn how, and one-hundred sixty drive without a license!

Why? Can it be that C. G. Highers are lazy? Can it be that C. G. Highers are so lacking in self-confidence that they keep putting off their examinations? Can it be that C. G. Highers think they are playing it smart or cool. We have no way of knowing the reasons, but we sincerely hope that those one-hundred-sixty students remember Mr. Peake's words of advice and friendly warning.

United States exports to Russia show a sharp decline.

Words of the Wise

Faith always implies the disbelief of a lesser fact in favor of a greater. A little mind often sees the unlikely, without seeing the belief of large ones.
