1,825 small and large businesses

219 churches, religious organizations

3,500 Standard of California employees

91,000 Americans who invested their savings

**Who shares Standard of California Profits?**

No college football stadium in the country could seat all the owners of Standard of California.

With 97,000 individual stockholders, it's one of the most widely owned companies in the West... and more than 70% of these people are small stockholders with less than 100 shares.

Among the large stockholders, you'll find literally hundreds of companies and organizations which work for you or benefit you every day—hospitals, universities, museums, churches, insurance companies, YMCA groups, research laboratories. And, of course, thousands of our employees are also owners. Standard of California profits, therefore, are divided among a tremendous number of people.

You share, too. Just since the war we've invested more than \$500,000,000 in oil wells, refinery units, pipelines, tankers, distribution plants and marketing outlets... facilities to help us meet our responsibilities to serve the growing West.

Prices in this ad are effective through Saturday, April 15
