Look at this diagram, folks! It shows why you get more good-eating for your money when you buy Safeway's trimmed-before-weighing meats. Note that you pay only for the portion that properly belongs on each cut — not for excess bone, waste, or fat. We prepare other cuts in similar fashion — each according to its special requirements. When checking meat value, it pays to compare *trimming* as well as *price*. Safeway's price is always on the trimmed cut.
