PROVED IN 5-BILLION MILES

Richfield Rust-Proof gasoline saves you money!

PROOF! IN ONE YEAR'S USE, NOT ONE SINGLE COMPLAINT OF RUST OR CORROSION

All over the West, motorists are enjoying the money-saving protection of Richfield Rust-Proof gasoline.

Since Rust-Proof gasoline was introduced a year ago, it has powered Western cars more than 5 billion miles. In your own car, that would be equal to driving 10,500 round-trips to the moon. Yet in all that time, Richfield has received not one single complaint of fuel system rust or corrosion.

Rust-Proof gasoline owes its remarkable ability to stop rust to its amazing ingredient—RD-119. Rust and corrosion result from moisture that condenses daily in every car's fuel system. This moisture rusts and corrodes the gasoline tank, fuel lines, fuel pump and carburetor.

The result is loss of power, poor performance, frequent repairs and costly replacement of damaged parts.

RD-119 makes moisture harmless. In new cars, rust and corrosion can't get started. In other cars, rust and corrosion are stopped from doing further damage.

You save money because you no longer have to pay for fuel pump and carburetor parts ruined by rust and corrosion. Your rust-free car runs better, delivers more miles to the gallon. Engine tune-ups are not as frequent.

Enjoy this money-saving protection in your car. See your Richfield dealer regularly for Rust-Proof gasoline.

Rust and corrosion ruined this fuel pump on a 1949 car!

This fuel pump from a popular make car was ruined by rust and corrosion in less than one year! The owner could have saved the trouble and expense of replacement by using Rust-Proof gasoline.

Protected by Richfield Rust-Proof Gasoline!

This fuel pump—from exactly the same make and year of car as the one above—shows no sign of rust or corrosion after one year. Richfield Rust-Proof gasoline was used exclusively.

ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

Railroads' answer to Board is ... YES!

Union leaders' answer to Board is .. NO!

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

Board Says Demands Unjustified

In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against everybody who uses the railroads.

FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE

The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are:

Chicago Great Western Railway Company
Chicago, Rock Island & Pacific Railroad Company
The Denver & Rio Grande Western Railroad Company
Great Northern Railway Company
The Western Pacific Railroad Company

It is time to put an end to such un-American tactics!

The Answer to a Raw Attempt At Dictatorship is "No!"

In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—"NO!"

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.
