#### THE CASE OF BIGNESS

Seven major oil companies on the coast face prosecution under the anti-trust laws, along with the A. & P. corporation and a number of other large concerns. The general impression conveyed in the government's effort to break up the big corporations is that bigness is a sin. We don't think so and neither do we believe the public does for that matter. There are a number of developments connected with the economic trend in the past fifty years which must be classed as rather unhealthy so far as the individual is concerned and there are lots of things we don't like about the big corporations for that matter, but to try and tear up our economic structure through government effort is about as bad as trying to abolish our democratic form of government and starting over again. If we tried to abolish our form of government, we would have anarchy, communism or some other form of government just as bad. And the same thing will happen if we try to do away with big business and go back fifty years, where the family unit really served as the manufacturing center.

Big farming with tractors has placed farming in the hands of a few; it has disrupted the community centers as people knew them fifty years ago and it has caused a wholesale migration to the population centers, which in turn has created a social and labor problem.

The problem of hunting oil is a major one and can only be financed by large concerns with lots of money. The same thing is happening to our lumber industry; notwithstanding the fact that small lumber operators have played in the development of the lumber industry. By the time a lumber concern invests in a mill, dry kilns and other equipment necessary to conduct modern operations and invests in a stand of timber, the operations run into big money, which can not be met by the small operator. But in the lumber industry, government encourages bigness by insisting on conservation of our timber resources, which requires large capital to handle.

And while insisting on conservation, which is right in principle, but requires capital, the government says the major oil companies are too big and need to be broken up. Just what is consistent in a view of this sort?

It appears to us that the real objective of the present government effort is to dictate the policy of big business. And when this comes about, what's the difference between a policy of this sort and socialism or communism?—W.C.M.

## First National Bank Raises Interest Rates For All Savings Depositors

Increased interest rates for savings account depositors at the First National Bank of Cottage Grove became effective July 1, it was announced Wednesday.

Depositors will receive 1 1/2% interest on all savings accounts up to and including \$10,000 and 1% interest on any amount in excess of \$10,000. This action was taken by the board of directors at their regular June meeting. It is stated that the new rate will apply to both new and existing accounts and that deposits made on or before July 10 will draw interest from July 10.

H. E. Eakin, vice president and cashier of the bank, pointed out that this increase in interest payments to savings depositors means an increase of 50% to the small depositors who are saving for their security and independence. The rates of interest previously paid by the bank were 1% on the first \$5,000 and 1/2% on any amount in excess of \$5,000. He stated that the excellent earnings of the bank have made it possible to increase the interest to savings depositors.

"This increase in savings interest, the recently authorized dividend to stockholders and the adoption of a six-day banking service exemplify not only the strong earning capacity of the bank but also its progressive program in the interest of its customers and stockholders," Eakin said.

### Jas. E. Culbertson Services Thursday

James Edmond Culbertson of Disston route, Cottage Grove, passed away at his home Saturday, July 1, at the age of 61 years. He was born January 25, 1889 in Wisconsin, and married to Mary A. ### 9 P. M. Joshua Time 7-4-50

Well, another 4th of July is gone and we regret that the life of many people ended in tragedy and thousands of others were maimed and crippled permanently. All of this in a country of plenty and happiness where we value freedom so highly. Evidently we have little regard for human life. Many of us seem to shed all courtesy, common sense, and civilization and revert to raw savagery when we crawl under a steering wheel. It seems we intend to get there in the least time possible, regardless of results.

We do not advise you to stay home on holidays but to drive carefully and sanely ever on the alert for insane drivers who may approach from front, rear or either side.

First, put your own car in safe operating condition. Check the rear view mirror, check your brakes, horn, ignition, fuel pump, generator, radiator and tires.

That is where we come in. We have tires guaranteed against all road hazards for eighteen months, Willard batteries that will kick your motor from here to there. Let us look your car over before it breaks instead of afterwards; our service is many times more economical than repair bills.

### CO. BUDGET APPROVED AT HEARING JUNE 30

The 1950-51 Lane county budget was approved Friday when about twenty-five taxpayers met at the county court house in Eugene. The budget calls for expenditures of approximately \$3,000,000.00. The largest slice of the budget will go for roads and amounts to \$1,431,242.50. The general fund amounts to \$726,071. The eight amendments approved

at the meeting do not affect the county tax rate. The \$45,000 self-supporting budget for the new juvenile home was read at the hearing, but it was not itemized.

A request from 76 county employees for a \$15.00 monthly wage boost was not considered at the meeting. Several county employees were present at the hearing, but made no protest when the budget was approved without the increase.

## The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant—when you feel the smooth surge of its Dynaflow-cushioned take-off—

Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

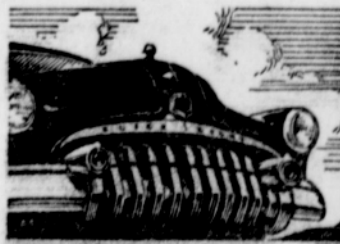

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine, Dynaflow Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

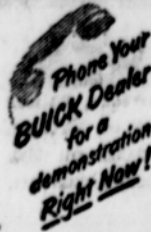

#### FOUR-WAY FRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

### Hansens Return From K-F Meeting

Homer and Paul Hansen of Hansen Bros. have just returned from the Kaiser-Frazier dealer meeting at Portland called by Portland Motors, new Kaiser-Frazier distributor for this area. Attendance of the dealer organization for Oregon and Southwest Washington was 100%, and all participated in an unusual mass delivery through which the more than 30 dealers each took delivery of at least one new 1951 Kaiser, Paul Hansen said.

Stepping-up and smoothing out of factory production schedules will soon bring output of the new Kaiser and Frazier models into better relation with demand, the meeting was told by George Tickner, regional manager for the Kaiser-Frazier corporation. Paul Hansen quoted Tickner as assuring dealers of early deliveries on some of the 1951 models, which have not been available up to this time.

Mr. and Mrs. Wally Robertson spent the 4th on the North Umpqua river, fishing.

and that the plaintiff is the owner in fee simple of said property as set out in the Complaint herein, and that you, and each of you, be forever enjoined and debarred from asserting any claim thereto adverse to the plaintiff; and for such other and further relief as to the Court may seem just and equitable.

This Summons is published pursuant to an order made by HON. WILLIAM G. EAST, Circuit Judge for Lane County, Oregon, on the 20th day of June, 1950, which order directs that this Summons be published once a week for four successive weeks in the Cottage Grove Sentinel, a weekly newspaper of general circulation printed and published in Cottage Grove, Lane County, Oregon, and that you be required to appear and answer on or before the last day of the time prescribed in said order, to-wit: on or before July 20, 1950. HERBERT W. LOMBARD, Attorney for plaintiff. Residence and Post Office Address: Wiser Bldg., Cottage Grove, Oregon. 46-5tc-49
