A SALUTE TO 4-H FARM SAFETY National Farm Safety Week is being observed throughout rural America, July 23-29.

It is the 4-H Farm and Home Safety program carried on by nearly half a million 4-H club members between the ages of 10 and 21.

Since the project was launched on a national basis eight years ago, enrollment has increased five times. This would indicate that our farm boys and girls have steadily become more safety minded.

So it seems a foregone conclusion that many times the half-million young folks taking part in the 4-H safety program are influenced and benefited.

LAWYERS THAT WERE MEANT FOR THE OTHER FELLOW If forestry officials, lumber and logging companies and others who are familiar with the cause of forest fires could impress on the average smoker that the rules, regulations and laws posted in the forest to prevent forest fires, were meant for him as well as the other smoker, a long step would have been taken in the elimination of man made fires.

LEGALIZED GAMBLING? WHY SURE An article in Tuesday's New Mexican told of efforts afoot to enact legislation which would legalize gambling in those counties which vote for it.

THOSE HOARDERS It's probably human nature to attempt to get as many comforts and as much material security as possible when facing a national emergency.

H. Crume, Former Resident, Dies Harry R. Crume, former resident of Cottage Grove, died July 13 at Hayward, Calif., where he had been living for the past eight months while receiving medical care.

Former Resident Dies at Dallas John W. Shattuck, age 84, a former resident of Cottage Grove, passed away in Dallas, Oregon, July 25, 1950.

KEEP OREGON GREEN A group of young people from Cottage Grove are planning to plant a tree in honor of George Washington.

ABOUT ATHLETE'S FOOT ABOUT ATHLETE'S FOOT 4056 PROMINENT DRUGGISTS CAN'T BE WRONG Here's what Meyer of Muncie, Ind., says: "T-4-I has rapidly become our largest selling athlete's foot preparation. We hear so many favorable comments. Not once have we had to refund."

IN ONE HOUR If not completely pleased, your doctor at any drug store. NOW at Kelly Drug Co.

BACK TO THE CAVES By BILL JENKINS Editor Klamath Falls Herald & News

A recent AP dispatch carried this message: "Numerous casualties were reported among Red ground troops caught in a storm of rockets, bombs, machine gun bullets and — for the first announced time — the jelly-like explosive called Napalm."

A new weapon of war. A war fought, of course, to preserve the peace. No war is ever fought for any other reason, apparently. When you think of the new weapons of destruction it is hard to keep your mind from looking backward.

The age of armored knights came and with it came use of the broadsword, the crossbow and the battering ram. Then came gunpowder. Then came high explosives. Then planes and finally poison gas.

For years people said that poison gas was such a terrible weapon that another war would never be fought. Then came world war two, fought despite poison gas, little of which was used except in the burning pits of German concentration camps.

When we first read of the A-bomb we all thought again that here was a weapon that would end war. Now we have already developed, they tell us, a helium bomb that makes the atom bomb look like a plaything for the children.

DAVIS, CALIF., ENTERPRISE: "Today it seems more important to a lot of people to get free handouts, or Federal aid or subsidies or one of the many something-for-nothings benevolently provided in Washington even though they bring with them no little dictation and abuse."

Modern war visits destruction on the victor and vanquished alike. Our only complete assurance of surviving World War III is to halt it before it starts.—General Omar N. Bradley.

"Money does not make you happy—but it quiets the nerves."—Sean O'Casey.

Washington Letter

By Harris Ellsworth Representative, 4th District

To better understand what is happening in Korea now it is necessary to review some recent history. The Japanese surrendered August 10, 1945. General Order Number One, which General MacArthur signed later and which established the 38th parallel as a dividing line, was written the next day, approved by the Joint Chiefs of Staff and by the President and was telegraphed to MacArthur in Manila on August 15th.

PORTLAND, ORE.: There were more Phi Beta Kappa's and Ph.D.'s per square yard of carpet on the mezzanine floor of the Multnomah Hotel between last June 26 and 29 than any other one place in the world.

BOISE, IDAHO: This time U. S. Senatorial candidates are exercising unusual discernment in selecting campaign incentives. Sen. singing cowboy Senator Glen Taylor, "I'm gravely concerned about the developments in Korea."

NOME, ALASKA: Pan American pilot Jimmy Stewart is the Alaska bush pilots' gift to modern aviation. Jimmy—who, incidentally, is even more handsome than the movie idol who shares his name—was an engineering graduate of the University of Alaska and tundra-hopping pilot of a year's standing before 1940, when Pan-Am, ever on the alert for top quality personnel, hired him.

BABY KAY SCHIMMELPFENIG Kay Ellen Schimmelpfenig, 13-day-old daughter of Mr. and Mrs. Alfred N. Schimmelpfenig of 1224 Willamette street, Eugene, passed away Thursday, July 20, in a hospital in Eugene. She was born in Cottage Grove July 7, 1950.

Services were held at Mills Mortuary, Saturday, July 22, at 10:30 a.m., with the Rev. R. E. Parrish officiating. Interment was in the IOOF cemetery.

UNITED STATES AT LARGE: There's an attorney named "Poor" whose engraved address is "Wall Street" doing a cross-country fronting and sparking job for the new and allegedly liberal organization called "Republican Advance."

NEWPORT, ORE.: The sea monster has again raised his ugly head above the salt waters off the Oregon coast. He did even more this time. He raised a 30 foot fin, and thrashed it about as he wrestled a full-grown whale with full sight of at least 20 local reputable binocular fishermen.

MOSCOW, IDAHO: At last government planners are beginning to agree with the lowly subjects who actually own and till the soil of the Inland Empire, and have reached a scientific conclusion (which tallies with the long known horse-sense truth citizens have recognized for ages) that water, as such, was our most important product and natural resource.

LATHAM Mrs. Esther Trunnell, Reporter Phone 17-F-11

A long distance telephone call of unusual interest was made recently from Portland by Grace Lea Rue, nurse who had just escaped from Seoul, Korea with only a suitcase. She called her aunts, Mrs. Addie Veatch, Miss Elsie Lea and Mrs. Ed Conner. She and her husband, Dr. George Rue managed a hospital in Seoul at the outbreak of war, but Dr. Rue happened to be in San Francisco at the time on business. Mrs. Rue was en route to San Francisco. She is the daughter of Nora Veatch Lea and Casper Lea.

To return from a very fine trip and find before you got the door open that your home had been sold even the long expected and planned for, it was almost too much for Mrs. Harry Lewis and son, Gary when they returned from California recently. The place was sold to Mr. and Mrs. Roy Crawford who live in one of the Woodard houses. They will take possession in August. The trip to California was of unusual interest as it was a family reunion. A sister of Mrs. Lewis and her husband, Mr. and Mrs. Joe Laird and children, Roberta, Betty and John of Ulysses, Kansas, another sister and husband, Mr. and Mrs. Chas. Myres and son, Jimmy of Springfield and Mr. and Mrs. F. E. Vick of Creswell, parents of the women visited another sister and husband, Mr. and Mrs. Kenneth Holbrook and son Jerry in San Francisco. The party also visited Oregon Caves, Sea Wonders Alive in Crescent City and points of interest along the Redwood highway.

Midge, pet toy terrier dog of Mr. and Mrs. Murry Trunnell passed away at the age of 12 years and two months on July 20. Two doors away at the Windham home, a white shepherd, Lassie, gave birth to eight puppies on the same day. Such as this will surely help to keep production normal in "dogdom." The Trunnells still have Nippy, 15 years of age who is the mother of Midge. Even dogs get the old age limit in these parts.

Mr. and Mrs. Lee Kruse of Reedsport recently visited her mother, Mrs. E. R. Lemley. Mr. Kruse was laid off due to a badly injured finger. Mrs. Lemley has now moved to her new home near the high school.

Mr. and Mrs. Robert Botley have moved into a cottage at Thornton Corners, where Mrs. Botley will care for Danny and David Morris, small sons of Mr. and Mrs. Tom Morris while their mother, Jeanne Gill Morris works as nurse in the office of Dr. David Morris in the new Medical-Dental building.

Mrs. Frances Nichola, Mrs. Carrie Knutsen, Mrs. Newt Corliss and Mrs. Arthur Corliss and son and daughter of Eugene were visitors of Mrs. Murry Trunnell one afternoon last week.

Mr. and Mrs. J. W. Morris of Ashland stopped over here Monday at the Gerald Beers home after having spent the week at the Free Methodist camp meeting in Portland.

Mr. and Mrs. Lynn Hawes and sons, former residents, who spent the winter in Kansas are now living in Medford where Mr. Hawes is employed at a mill. They visited at the A. A. Hulls here recently on the return trip.

Cars driven by Harold Brown of 129 No. P St and Homer Huff met in a head on collision on the London road near the end of Nichols lane Monday afternoon. Each was accompanied by another man. Injuries did not prove serious and were treated locally.

You can sell through the classified Page 12 and 13.

Letters to the Editor

To the Editor: When the Cottage Grove Riding club put on its first show I wrote criticizing their ambulance service.

The greatest improvement this year, in my opinion and that of everyone I talked with, was the starting of the races. There has always been the biggest delay in every show. This year's starter was the first yet to show no favoritism, and give all a fair start, and still get them off with the least possible delay.

The only complaint I heard in all the crowd this year was that it was so hot. What, with the extreme improvements they have made over the past shows it would be no surprise to find that next year even the weather man will be working with the Riding club for perfect weather with a perfect show.

ILLAWACO, WASH.: "Love Letters of a Married Man" is the head of an unusual and popular weekly chit-chat column in the Ilwaco Tribune, edited by young Dick Murfin and wife.

An Expert goes on Record for TRIANGLE

"My twelve weeks old New Hampshire pullets, fed on Triangle Feed, are now on range. In my past eighteen years of raising chickens I have not seen a faster feathering and more rapid growth in any flock I have supervised."
