DRIVERS' EXAMINER TO BE AT CITY HALL

A drivers License Examiner will be on duty in Cottage Grove Monday, Aug. 28, at the city hall between the hours of 9:30 a.m. and 3:30 p.m., according to an announcement received from the Secretary of State's office. Persons wishing licenses or permits to drive are asked to get in touch with the examiner well ahead of the scheduled closing hour in order to assure completion of their applications with a minimum of delay.

SP Plans to Add More Freight Cars

Plans for buying or building an additional 5000 freight train cars and 46 diesel electric locomotives were announced by President A. T. Mercier of Southern Pacific, following a meeting of the railroad's board of directors in Portland.

The new equipment will raise to 28,630 the total number of new freight train cars and 350 the total number of diesel electric locomotives for Southern Pacific since end of World War II. Mercier reported, besides an investment in half the cost of 8000 new Pacific Fruit Express refrigerator cars. It is expected that builders will begin delivering the new equipment in the first half of next year.

Including the foregoing, the railroad's post-war purchases of new rolling equipment have called for an expenditure of more than \$307,000,000, the rail president said.

Looking for a "good break"?

You get the best brakes on
DODGE
"Job-Rated"
TRUCKS

Best for stopping . . .

Smooth, sure stops are yours with a Dodge "Job-Rated" truck . . . thanks to extra-large braking area. The driver has full control of brake action, because of "equal-pressure" design of service brakes. These famous hydraulic brakes are easy to adjust, too.

Best for parking . . .

You get the added safety of two separate brake systems in your Dodge "Job-Rated" truck. On every Dodge model, the hand parking brake is completely independent of service brakes. Operating on the propeller shaft, it helps lengthen the life of the service brakes.

NOW! gyro FLUID DRIVE!

Available on all 1 1/2, 3 1/2- and 1-ton models. Reduces wear, lowers upkeep costs. Ask us for Fluid Drive booklet.

. . . and the best brake lining, too!

You get longer lining life and better braking with Cyclebond linings. It's fused to the shoe! No rivets means lining can be used practically down to the shoe . . . with virtually no danger of drum scoring. Ends are full-thickness—not tapered—to provide more braking surface.
