

Church ACTIVITIES

"Man" is the subject of the lesson-sermon in all Churches of Christ, Scientist, on Sunday, September 3.

The Golden Text is "Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful. But his delight is in the law of the Lord; and in his law doth he meditate day and night" (Ps. 1:1,2).

Among the citations which comprise the lesson-sermon is the following from the Bible: "So God created man in his own image, in the image of God created he him; male and female created he them" (Gen. 1:27), together with the following correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "God is the Principal of man, and man is the idea of God" (p. 476).

President Truman Endorses Religious Education Week

Religious and spiritual foundations must be strengthened if the nation is to meet successfully its many problems.

So wrote President Harry Truman in his endorsement of the 20th annual observance of Religious Education Week, scheduled for Sept. 24-Oct. 1, 1950.

His endorsement was contained in a letter to Dr. Roy G. Ross, general secretary of the International Council of Religious Education, which sponsors the celebration along with its 40 member denominations and more than 800 affiliated state and community councils of churches.

"Man cannot live by bread alone; and an over-preoccupation with material things will not take us on down the path toward genuine freedom, justice and happiness," the President observed.

"The firmer grasp we have on the truths of both the Old and the New Testaments, the nearer we shall come to achieving our inmost democratic ideals."

President Truman commended the week's theme, "Religious Teaching—Vital to the Nation."

"In sponsoring this observance, the International Council of Religious Education is performing a very real service," the Chief Executive added.

Religious Education Week is celebrated each fall from Rally Day through World Communion Sunday in thousands of communities and tens of thousands of churches throughout the United States and Canada. Its purpose is to demonstrate the importance of religious teaching.

Beef Herds
In average beef herds, less than one set of identical twins occurs in every 2,000 births.

Bison Population
Bison, or buffalo, now number close to 4,000 on fenced rangeland, largely in Montana and South Dakota. From an estimated 50 million at the time of early settlers, they dwindled almost to extinction. Fore-runner of all attempts at big-game censuses was naturalist W. T. Hornaday's careful survey showing a tally of only 541 bison in 1889.
