 352,000,000,000

GOOD HEALTH
 WILL YOU BE HOSPITALIZED THIS YEAR?
 1. Probably not, but the chances are that someone in your family may be. There were 16,659,973 patients admitted to hospitals in 1949, a percentage record more than 6,000,000 above the figure for 1940. An important reason for the increase is the rapid spread of hospitalization insurance, now estimated to exceed 60,000,000.
 2. No, it's just standard. And even with 20/20 vision you may need glasses for close work, such as reading or sewing. If you're having trouble with your vision, check with your doctor.
 3. They can make a lot of noise but real weeping doesn't begin until the baby is three months old, at which time the tear glands are fully developed.

"JOE BEAVER" By Ed Nofziger
 "Of course our trees are worth their weight in gold—you can build a house with trees!"
 SALT LAKE CITY zoo has swapped Toronto two baboons for a mountain lion. What puzzles Zadok Dumkopf, the ageless bleacherite, is that neither side had to toss in a utility infielder in the deal.
 American watchmakers want higher tariffs to combat Swiss importations. They've started a movement in Congress.
 Reading the above, Aitch Kay suggests that maybe they can make out a good case for themselves.
 A plague of grasshoppers on a California location held up the shooting of a western movie. Should have sent in a call for help to Hopalong!
 Spinach is being recommended as breakfast food. Now, Junior will be harder than ever to arouse.
 Grit and dust cost municipalities considerable expense annually, statistics show. Grime does not pay.
 If a suburbanite proves to have the so-called green thumb he's almost certain to have neighbors who are green-eyed—with envy.
