Results Are Sure

The classified pages of the newspaper command interest next to the front page because the public has learned that a small want ad is their most economical market for the buying and selling of household goods, renting a house, selling livestock, getting help or getting a job and even getting a helpmate.

Recently Mrs. SG got sixty calls on a "For Rent" ad inserted one time. Mrs. W. advertised a house for sale and had ten buyers. Mrs. MAH advertised ewes for sale and sold out within a few days.

These are just some samples taken at random, but results of the average "want ad" are just as good.

The new homes come equipped with every modern convenience—except low monthly payments and taxes.
