Water Doesn't Phase Local Folks

A few sidelights on how the populace was taking to the flood waters was observed by a reader in the downtown district Saturday afternoon. She thought it was so unusual that she telephoned us to tell how three people were managing in the storm.

She found Claude Sherman cleaning out leaves and debris from sewers on Whiteaker avenue, where the manhole had been clogged by leaves. Claude was using his two crutches to advantage in clearing away the leaves and trash so the water would escape.

"The gutters full of water don't bother me particularly," he said, "but the water might cause trouble for the women and children, so I'm cleaning the leaves and trash away."

Over on Main street she saw a man step out of a beer parlor in his house slippers. When he started across the street with about three sheets to the wind, a curb with six inches of water did not phase him. He went right on as if nothing had happened.

Further up Main street she saw a well known native of Norway dressed in his Sunday best, but barefoot as he loaded his automobile.

Don't forget to vote Nov. 7.

Fabric-Lined Greatcoat

Corduroy and wool.

By VERA WINSTON

THE fabric-lined greatcoat smartly styled, and with an opulent look is one of the nicest of the new trends. This most attractive design uses taupe corduroy lined with brown woolen of a hairy texture. The wool fabric also forms the cape collar which is generous enough to be draped as a hood. The woolen also edges the capacious pockets. The coat hangs loose and bells out towards the hem. While it has no buttons, it is equipped with a generous lap-over.
