**Cooperation Between Motorists and School Patrol Is Essential**

Driver observance of school patrols at school crossings can do much to alleviate accident danger to the state's children, according to Secretary of State Earl T. Newbry.

Calling attention to the fact that school patrols control only the children and not motor vehicles, Newbry said that cooperation on the part of drivers is essential to the school safety program. Motorists, he said, should be on the alert for the yellow helmet, Sam Browne belt and yellow flag which warn that school children are crossing the street.

Cooperation and caution on the part of motorists and patrol members are the key features of the hundreds of school patrols in Oregon, Newbry added.

During the business meeting Joan Gallo reported on a luncheon attended by representatives of civic groups pertaining to the outdoor Christmas decorations of this area.
