REMEMBER WHEN

—a phonograph and a few records, some of them cracked, would be the family's sole entertainment on long winter evenings? The machine had to be cranked by hand and the needles were scratchy. People were satisfied with simple amusements then. Remember?

Catholic Fall Festival Is Success

Almost \$2000 was raised during the Fall Festival sponsored by Our Lady of Perpetual Help parochial school Saturday at the armory. The exact sum raised was \$1,915.47, according to General Festival Chairman Robert Stapleton. More than 300 persons were served at the turkey dinner in the evening, of which Mrs. Clifford Smith was in charge. Festival winners were Patricia Ann Nowak, Mrs. Joe Cody, Mrs. J. C. Goodheart, Stella Miller, George Karow, Mrs. John Vrana, Mrs. Hugh Doolittle, Leon Denfield, and Maggie Wertz, all of Cottage Grove; and Mrs. Darlene Smith of Springfield.

An Air Force Boeing B-50 Superfortress, the Lucky Lady II, a modified B-29 Superfort, completed the first non-stop round-the-world flight on March 2, 1949. The bomber covered the 23,452 miles in 94 hours 1 minute at an average speed of 249 miles per hour.

The Eiffel Tower in Paris is the third tallest structure in the world. It stands 984 feet high. The two tallest are the Empire State building and the Chrysler building, both in New York.

Is The Catholic Church A MENACE TO DEMOCRACY?

Every now and then a false rumor about the Catholic Church gets into circulation and—for a time—fools a lot of people.

Usually such rumors die out when fair-minded people learn the truth. But some of them pop up again like "ghosts" out of the distant past, to deceive people who have not heard them before.

The one most prevalent today is that American freedom is in danger from "the anti-democratic program of the Roman hierarchy." This, to some people, will sound new and alarming. Actually, there is nothing new about it.

Catholics of a century ago heard the same "alarm"—that the Church was hostile to our form of government—that she was anti-republican in spirit and influence—that she would disregard our free institutions and deprive us of our self-government.

Even those who do not understand the teaching and practices of the Catholic Church will have to admit the falsity of this rumor... for the evidence of a hundred years contradicts it in every particular. The Catholic people always have stood shoulder-to-shoulder with their non-Catholic fellow-citizens in building and defending our liberty and free institutions.

The rumor of today... like the rumor of a hundred years ago... does not claim that the Catholic Church is harmful to men's souls. It does not claim that the Church

endangers the salvation of mankind. Its entire objection is that the Church is hostile to our political and social institutions.

In this there is a remarkable resemblance to the "alarm" sounded against Jesus Christ Himself.

"If we let this man go," said the Savior's critics, "the Romans will come and take away our name and our nation."

Some think that Catholics should get their blood pressure up and reply angrily to these rumors. This is not necessary. We know that the American people of all faiths... with their traditional sense of justice... will boot this ghost back into its closet without our help.

Free But if you would like to know the Catholic attitude toward democratic freedom, our form of self-government, and the rights of the State and the individual, write today for free pamphlet on the subject. Just ask for Pamphlet No. KC-21.
