THE "EXPERTS SAY:

## BETTER BUY NOW!

We are NOT trying to outguess the experts on the prospects for new car production during the coming year. As a matter of fact, the technical experts of high standing in the industry go a lot further than we dare. The moves they are making suggest that they expect some serious curtailments in production soon. What they think comes to us only as rumors, but here is what is indicated:

1. Fewer Cars
2. Higher Prices
3. Substitute Materials

We have a good supply of '51 KAISERS on hand in almost all colors and popular body styles. We also have several shipments of the HENRY J here and in transit. We don't know how long we'll have them, or when the prices will change.
