The old flu bug has made the rounds in the community quite thoroughly from reports the last week or two with hardly a family escaping at least one or two cases.

Clyde Gilham has written his parents, Mr. and Mrs. Chet Gilham here, that he is in the hospital in Japan with yellow jaundice. Clyde has been driving ammunition truck in Korea since January 1, until becoming ill February 1. The worst part of it all he admits, is having to stay in bed.

With the electricity on again, off again, gone again with power troubles at least twice in the community the last week, folks with early baby chicks have been having to resort to other methods of keeping the brooders warm than with the handy light bulb. One method is a kerosene lantern for warmth and another is to keep them in the living room beside the fireplace, if you don't happen to have a lantern.
