Facts truck owners should know about hauling bigger payloads

HERE'S why you can carry more payload with Dodge "Job-Rated" trucks.

First, they have better weight distribution. This means bigger payload capacity is engineered into a Dodge "Job-Rated" truck. Many trucks carry too much weight on the rear axle, not enough on the front. But in a Dodge the right proportion is carried on each axle.

Besides better weight distribution, a shorter wheelbase provides easier turning and parking. Come in and try one of these easier-handling trucks. Get all the facts about hauling bigger payloads.

Haul faster! Dodge "Job-Rated" trucks are powered by high-compression engines to give you top performance with rock-bottom economy. Big power gives you pull and speed that save time on every trip.

Carry more! In Dodge "Job-Rated" trucks, the engine is placed forward and the front axle back—for better distribution of the load. That's why you can carry bigger payloads—without overloading.

Get longer life! There's a Dodge truck that's "Job-Rated" to fit your road and load condition—with load-carrying and load-moving units factory-engineered to stand up on toughest service.

Across the Counter

I don't know how many of you folks realize it, but colds are more prevalent at this time of the year than at any other. You go out on a balmy Spring day with only a light sweater, but it's colder than you think. So, next day, sure enough, you have the beginnings of a simple sore throat.

Then you drag down the aspirin for a gargle... but wait! I have something that's even better. We now have Rexall Aspirin Troches. They relieve minor throat irritations, headaches, and neuralgic pains soon after they've dissolved in your mouth.

We call them melt-in-the-mouth troches. They're raspberry flavored and they work better than aspirin gargle because they provide a higher concentration of aspirin all over your sore throat for a longer period. Important, too, is the fact that you can carry them in your pocketbook or purse and take them anywhere, anytime, because you don't need water to wash them down... and they're only 39c, here at my Rexall Drug Store...

Which brings to mind the 1-grain orange-flavored Rexall Aspirin tablets we have for your young ones for less than a penny apiece and the raspberry flavored ½-grain tablets for the tiniest of tots.

You'll find more than just a drugstore here under our orange and blue Rexall sign. We like people and we're always willing to listen to anything you're interested in saying. If you feel like shopping, don't break open the piggy bank, because a penny goes a long way here. And if you feel like talking, there's no charge at all.
