ARE YOU ILL?

When you are feeling bad you may try to doctor yourself with home remedies. If you are really bad sick you consult your doctor. Often you would have been better off if you had consulted him in the first place. So it is with insurance — you will be well repaid in most cases if you take your problems to an insurance agent who is a full time insurance man. Don't just buy some insurance and think you are covered. Let your agent suggest what would best suit your needs. This advice is free.
