

Midgets Beat Drain Team 1st

Cottage Grove's Midgets made it four in a row Tuesday night by defeating and unexpectedly weak Drain team 21-12 in a home game. The Grove bunch had expected to find Drain one of its strong opponents.

Next tilt, however, may tell the Junior league story when Cottage Grove meets Eugene in a game at 2 p.m. Tuesday, July 8 at Larks Ball park in the northern city. Eugene and Cottage Grove were tied for first spot this week.

Grove racked up 1 run in the first, 6 in the second, 2 in the third, 7 in the fourth, 1 in the fifth and 4 more in the sixth. The Drain team went scoreless for two innings, getting 1 in the third, 6 in the fourth, 2 in the sixth and 3 in the seventh.

Fox High Man

Fox of the Grove was high man with two singles and a double in four times at bat. Sullivan got a single and a double in his two times up. Hays got two singles for two times up, and Tom Minkler got a triple and a single in his three times at bat. Five other men getting singles were Rice, Ballew, Stewart, Mason and Heck.

High man for Drain was the catcher, Wertz, who had three 2-base hits in five times up.

Taking pitching honors for Cottage Grove was Stewart, relieved by Mason in the fourth. Ellsworth went in later after Mason struck out only one man allowing four runs.

Catching for the Grove was Sullivan, relieved in the seventh by Fox.

Pitching for Drain was Stoop, relieved by Cardwell in the third. Catching was Wertz.

Coach Bud Neal said the game was poorly played, probably because the teams had not had much practice in the past week on account of rain.

Fish, Game Leaders Pass Resolutions Affecting Wildlife

Several resolutions passed at the annual conference of the Western Fish and Game Commissioners' association held recently in Glacier national park are of direct interest to Oregon sportsmen and they have been outlined by Game Commission Chairman Don Mitchell of Taft.

The association, representing fish and game commissioners from the 11 western states, resolved that the Secretary of the Interior, upon completion of a joint fish and wildlife service and bureau of reclamation study of waterfowl areas in the Klamath-Tule basin, set aside the lands agreed upon by the two bureaus for waterfowl preservation.

In the event agreement was not reached on the Klamath basin waterfowl areas, the association would immediately sponsor appropriate legislation designed to protect the future of the waterfowl resource in the Klamath area. Described as the most important single waterfowl area on the Pacific flyway, the Klamath basin waterfowl resolution was the first considered by the association.

Unrestricted use of vehicles designed for rough terrain that has led to unsportsmanlike hunting practices and damage to forest ranges was dealt with in a resolution calling on the forest service and bureau of land management to pass rules confining motor vehicles to established roads, unless otherwise allowed by a special permit.

The association went on record as opposed to a uniform grazing code for public lands submitted to the interior and agriculture departments by the National Livestock association. It was felt that the present multiple use policies calling for consideration of all elements including watersheds, timber production, recreation, and wildlife as well as grazing on the public domain would be endangered.

Opposition to any legislation that would provide a special tax for any hunting and fishing on any federal lands in order that the federal agencies may manage fishing and hunting in competition with the states was expressed by the fish and game commissioners.

Magazine Features Crater Lake, Gorge

Full-page color photographs of Crater Lake and the Columbia River Gorge near Crown Point are included in the July issue of Holiday magazine.

Devoted entirely to the theme "Travel U. S. A." the issue took a full year to compile.

Among the features of the issue are articles on the American Automobile Association, changes in U.S. travel, a coast-to-coast automobile trip, 12 regional tours and scenery and shrines.

The state of Oregon fares better than most in the issue, with two of 14 color pages devoted to the state's scenery. The photos have no printing on them, making them suitable for framing.

Feminine Fisher Wins Eagles Contest

The Eagles lodge and its fish derby chairman, Ed Keitzer, (right) misjudged feminine interest in fishing when it picked out a bat and ball for the prize in its June contest. But 12-year-old Navida Watts (left) of Disston didn't mind, for she said she knew she would be the envy of her playmates with the award for her 16-inch sucker.

Rained Out

Two baseball games scheduled to be played by local teams were called off last week end on account of rain. They were the Big Six league tilt with Swishome in the southern city on Sunday and the Midgets' father and son game scheduled Friday night at Kelly field here.

The Big Six game will be bypassed, according to Buz Wyant, team manager. McKenzie here on the 13th will be the next league test.

No other date has been set for the father-son game as yet.

Cottage Grove's Midgets drew a bye last week end in the regular division schedule.

Soapbox Derby Set For Salem July 13

SALEM — Oregon folks touring around on July 13 can get a free look-see at what now appears is going to be the biggest Soapbox Derby race ever held in the state.

If all the Willamette valley boys registered for the race—just 132, that's all—hit that specially constructed course in Salem's famous Bush Pasture park on that Sunday afternoon, it'll be something to see.

The course, a community production that is to be an almost exact replica of the All-American track in Akron, Ohio, represents over \$15,000 in donations. One firm alone is giving \$5,000 worth of paving.

It is anticipated that 20,000 people in the Salem area will be in attendance.

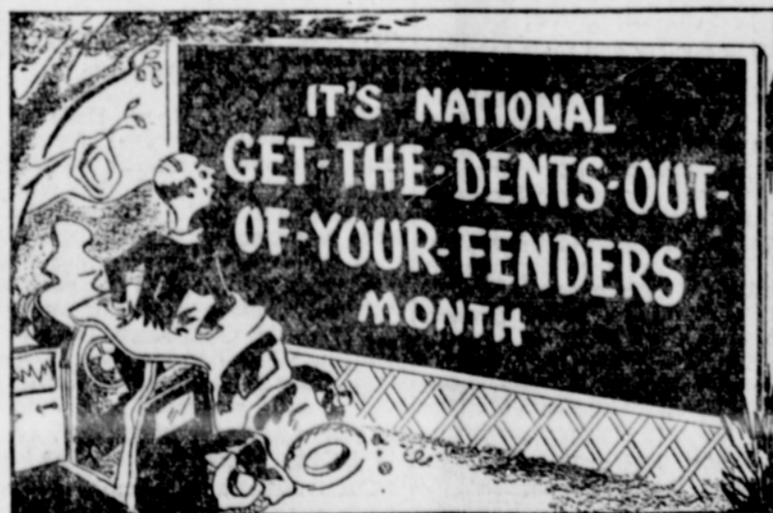

Gets Free Trip
Winner of the Salem race receives a free trip to the All-American Soapbox Derby under the sponsorship of Salem's Capital Journal and the Douglas McKay Chevrolet Motor Company.

A specialty feature is to be a "funny bug" race between Salem's Mayor Al Loucks and some of the 28 other mayors he has challenged in an official proclamation. They'll be racing in bath tubs with wheels, and what.

A cordial invitation is extended for any who wish to see that spectacle of young boys, ages 11 to 15, whizzing down a hill in home made "Soap Boxes."

ATHLETES FOOT GERM HOW TO KILL IT. IN ONE HOUR.

If not pleased, your doc back. This STRONG footcure KILLS OFF the enteric germ in exposed soles. Kills on contact. Get germless, instant drying F-L-1 at any drug store. Today at Kelly Drug.

DRIVE IN TOMORROW for your SPECIAL autobody inspection

Fender or body dents, paint scratches can rust away your car's appearance—lower its life. And they can't repair themselves! So drive your car in here tomorrow. We'll give you a special, fast "Get-the-Dents-Out-of-Your-Fenders" Month repair estimate. We'll show you just how little it costs to restore its original SHOW-ROOM BEAUTY.

Know your
OREGON MILK
CONTROL LAW

"You say I don't have the right to start a milk business... why not?"

BECAUSE you first must get permission. Everyone who distributes milk—whether as producer or wholesaler—must be approved by Milk Control.

Official regulations make it clear that no one will be permitted to enter the milk business if the Milk Administration says such new competition might disturb existing distributors.

Milk Control decides which distributors, as well as which producers, shall be allowed to fill our needs. No one can go into the milk business simply because he sees an opportunity. He must get permission. Once in business he cannot extend his business beyond a certain definite territory without further permission.

At the beginning of 1940 there were 766 distributors in Oregon. By 1950 their number had shrunk to 231—a loss of 70%. Yet this was the same period during which our population increased 40%.

Such rigid regulations prevent healthy competition which, in turn, could reduce milk prices just as it enables people to buy more of other foods.

SHOP SAFEWAY... FOR FINE FOODS AT EVERYDAY LOW PRICES

The questions and answers below show some other ways in which Oregon Milk Control affects YOU.

- Q. Does Milk Control allow you a lower price when you carry milk home yourself?
- A. No. You pay the higher costs of door-to-door delivery whether you use this service or not.
- Q. Does Milk Control limit the richness of milk?
- A. Yes. The richness (butterfat content) of milk sold in each price range is limited by the rulings of the Milk Administrator.
- Q. Does Milk Control set the price you must pay?
- A. Yes. That is the purpose for which the law was designed. It sets floor prices, not ceiling prices.
- Q. Does the Oregon Milk Control Law regulate Sanitary conditions?
- A. No. It has absolutely nothing to do with the sanitation, health inspection, cleanliness, or the purity of milk.
- Q. Does Milk Control limit the supply of Grade A milk?
- A. Yes. To sell Grade A milk for your use a farmer must first get permission from the Administrator. If he gets permission (and many do not), he is given a quota. If he produces more he must often sell the surplus at a lower price for cheese or other factory uses.

Send for this free booklet. You and your family are vitally concerned by anything that affects the milk supply of your community. Learn how Oregon Milk Control affects YOU. Write to Safeway Stores, 1139 S.E. Third, Portland 14, Ore.
