

CULP CREEK

Mrs. Florence Eriksen

A bake sale was held at Humphrey's store on Friday with the proceeds going for a new floor for the Row River Community hall.

Mrs. Clarence Wineinger was hostess at a demonstration party on Thursday afternoon. Guests were Mesdames Blanche Brightwell, Almetta Goodell, Peggy Groat, Evelyn Whitman and Florence Eriksen. Delicious cake with whipped cream and coffee were served with the door prize of forty points going to Mrs. Brightwell.

Mrs. and Mrs. S. O. Reed moved into their house purchased from Mr. and Mrs. Joseph McCune the last of the week. The McCunes returned Monday to get the last of their belongings here.

Mrs. Essie Patton and Mrs. Florence Eriksen were callers at the home of Mrs. Jewel Thweatt Monday afternoon.

I wish to make a correction for an item last week concerning Mrs. Arthur's birthday party which was combined with a housewarming party for Mrs. P. T. Thweatt, the bedspread given was to Mrs. Thweatt with Mrs. Arthur receiving many lovely gifts and was a complete surprise to her. Sorry, but I misunderstood the information given me.

Elmer Goodell was involved in a traffic accident Saturday morning while enroute to Eugene and considerable damage was done to his car. Fortunately no one was hurt.

Mr. and Mrs. R. L. Goodell and children of Alsea, Oregon were visitors at the home of Mr. and Mrs. Elmer Goodell.

Mrs. Jack Jones gave a birthday party Sunday honoring her mother, Mrs. Brinkler, Bill and Eileen Jones and Delores Sears who have birthdays this month. Games were played and refreshments were served. Mr. and Mrs. Glenn Violette were also present. Paul Arthur and Leslie Arthur went hunting over the week end

and brought back several geese and ducks.

Sunday dinner guests at the home of Mr. and Mrs. Paul Arthur were Mr. and Mrs. Freedman Harden, Deane Moore and Gordon Porter of Independence, Mr. and Mrs. Floyd Moore and Gary of Elkton, Mrs. Leslie Arthur and girls of Row River.

Mrs. Pauline Moore of Elkton is spending a few days at the home of her parents, Mr. and Mrs. Paul Arthur, after being a patient in the Cottage Grove hospital for a week.

Mrs. Ruth Wineinger will be hostess to the Sewing club on Wednesday, November 19.

Mrs. Esta Tucker and son Darrell spent the week end with relatives here and in Springfield. They returned to California the first part of the week where they are living now.

Mr. and Mrs. Herbert Raymond had a telephone installed last week. Their number is 6-9602.

Mr. and Mrs. Ray Goodell and children of Disston, Mr. and Mrs. Jack Peterson and children of Culp Creek were Sunday evening callers at the home of Mr. and Mrs. Elliot Eriksen.

Edward Lofting of Monmouth was a week end visitor at the home of Mr. and Mrs. Frank Coon. Alfred Coon left Saturday for his home in Tacoma after visiting

here with his mother, Mrs. Addie Hanson, and the Frank Coon family and other relatives.

Captain Lewis Sloan of Spokane, Wash., is visiting his uncle and aunt, the Joe Sloan's while on leave. He is a radar captain at Fairchild Air Base in Spokane and has been visiting in California before coming to visit here.

Mr. and Mrs. Cole Levasay motored to Salem and spent the week end with relatives there.

A special service club meeting is to be held Thursday evening, November 20, at 7:30 at the schoolhouse.

Mr. and Mrs. Leroy Pullen and family of Dorena visited one evening last week at the H. E. Raymond home.

Mr. and Mrs. Joe Miller of Sweet Home and Walter Lapelle of Africa visited over the week end at the home of Mr. and Mrs. Joe Sloan.

Larry Chapman showed some slides at the Young People's meeting Sunday evening at the Culp Creek Assembly of God.

Mr. and Mrs. Earnie Beaber and two children of Creswell visited Sunday at the home of Mr. and Mrs. T. E. Heath. Mr. and Mrs. Kimsey Floyd and children of Cottage Grove also visited on Sunday.

Charles Owen, father of Kenneth and Larry Owen, came for a visit with relatives. He is from

Rice Lake, Wis., and Mr. and Mrs. Francis Owen brought him down from Portland.

ARMY FIGHTS RUST, VIA GADGET NAMED "MOISTURE METER"

A small, inexpensive gadget—the "moisture meter"—may prove itself an important weapon in the Army Ordnance Corps' continuing battle against rust.

The device, known as a humidity sensing element, is designed to check the moisture of lightly sealed ammunition packages or other stored ordnance equipment. It literally puts a "picture window" in rust-preventive containers.

Now being tested by the Army Ordnance Corps, the tiny meter promises to eliminate the need for spot checking such packages thru costly, time-consuming packing and re-packing.

The moisture detecting instrument costs considerably less than five dollars and is expected to save several millions a year.

Virus Disease Control Sought By OSC Scientists

OREGON STATE COLLEGE—Life processes of disease-producing viruses are being probed by Oregon State college scientists in an effort to gain new leads for control of the baffling organisms.

A key role in the research is played by chicken eggs at the rate of about 200 a week.

The great majority of virus diseases, including colds, flu, measles, mumps, chicken pox, yellow fever, and a host of others, cannot be successfully treated at the present time with any known drugs. While antibiotics such as penicillin will control certain types of the group of "big" viruses—those resembling bacteria—they will not check the "smaller" ones.

OSC efforts, directed by Dr. K. S. Pilcher, bacteriologist, are aimed at finding compounds that will influence—either inhibit or stimulate—the normal metabolism of the organisms and thus provide a lead for more intensive work on the use of the compounds in a control program.

Amino acid compounds, which are near relatives of the proteins found in the viruses, are being tested at the present time. The eggs constitute the "testing grounds."

Mumps and flu viruses along with the test compounds are placed inside eggs by means of a hypodermic needle that is pushed through the air sac end. Once inside the chick embryo the viruses quickly multiply, according to Dr. Pilcher. After an incubation period of 48 hours for flu organisms and 4 to 5 days for mumps viruses, the embryos are removed and analyzed to determine whether the compound had any influence on the virus development. A series of different dosages are run for each compound.

Amino acid compounds used in the school of science project are prepared under the direction of Dr. Bert E. Christensen, professor of chemistry. Graduate students from the departments of bacteriology and chemistry are also assisting.

Research is supported by a grant from the Office of Naval Research.

LONDON

Mrs. Gale Roby, Reporter Phone 791R1

A wood fibre demonstration lesson will be given at the London 4-H Mother clubhouse November 25 at 10 a.m. by Mrs. Maurine Perkins of Cottage Grove. This is a beginners' class and work will start with carnations. Members and their interested friends may attend, and if the class shows sufficient interest additional lessons will be held. There is no charge except for materials that will be on hand. A covered dish luncheon will be held at noon and regular club meeting in the afternoon. Due to the Thanksgiving date, the club meeting was advanced to Tuesday, November 25.

At the November 12 meeting of the club a display was made of wood fibre flowers that aroused enthusiasm for a class. Two visitors, Mrs. Julian Small and Mrs. Henry Hess, became new members of the club. Nine members attended the covered dish luncheon at noon. Work was completed on the quilt for Mrs. Archie Hill, and a new one in a double wedding ring design was put in the frames for Mrs. Minkler of Silk Creek.

The plans were made for the Christmas party for the club to be held at the clubhouse December 10. Members and guests are to bring an exchange gift. They are also requested to bring a covered dish for the noon luncheon. Jeanne Morton and Mrs. Roy Ewing will do the decorating and arrange with Santa Claus to attend the tree. If you do not have a youngster of your own to bring, borrow one from a neighbor. Bring a child's gift for each one attending.

Wood Fibre At Hebron The class in wood fibre will meet at the Hebron Grange hall on Thursday at 11 a.m. when roses will be made. Twenty-six attended the class last week to make garlands. It was voted to hold classes every two weeks after the November 20 class, with the same 11 a.m. time on Thursday. That will give two more lessons before Christmas, December 4 and 18.

Earl Murry, an eighth grader, was able to return to school last Thursday after being burned earlier in the week at his home while starting a fire in the fireplace with diesel oil. A five gallon can which was about half full of oil exploded and burned the boy on his knees, face and right hand. Bandages have been removed except from his hand, which is healing satisfactorily. He is the son of Mr. and Mrs. Earl Murry of Cedar Creek.

Anella Martin accompanied her sister-in-law, Mrs. Donovan Martin, and two small children last Thursday by train to Oklahoma City to spend the Thanksgiving holiday with Mrs. Martin's parents. This is Anella's first trip east.

Mr. and Mrs. Arden Powell entertained with a Mexican dinner on Armistice Day at their home for Mrs. Powell's parents, Mr. and Mrs. Roy Hutchinson of Corvallis, and Helene Saager, a teacher at Eugene and a sister, Eloise Saager, also a teacher at Junction City, and Ralph Hutchinson, a brother of Mrs. Powell.

A thoughtful birthday remembrance was given Mrs. Beth Kells Monday afternoon by her niece, Mrs. George Hinkle, at the Hinkle home when eight special friends of Mrs. Kells in the community were invited to attend her birthday party. The afternoon was spent in visiting and opening gifts brought to "Aunt Beth" by her guests. Refreshments of birthday cake and ice cream were served. Assisting Mrs. Hinkle was Mrs. Emma Parker. Those attending were the Mesdames E. M. McEwen, Jane Funk, Fred Mills, Frank Taylor, Edith Woods, Kossy, George Andrews and Wilson.

Mr. and Mrs. Fred Mills received a surprise visit Monday afternoon from Mrs. Mill's brother and sister-in-law, Mr. and Mrs. Vene Foster, and daughter Nancy of Marsing, Idaho, who were on a trip to Arizona to visit her parents over Thanksgiving. On the trip they planned to make brief visits to all the relatives along the way.

Mr. and Mrs. Chet Gilham are remodeling their lower floor to add more sleeping rooms in the extra large living room area.

Tommy Banton received X-rays and treatment in Eugene last week. He is improved.

Frank Guisinger received a slight concussion in a fall and bump on the head last Wednesday evening while working in the weeds, but was able to deliver his load of logs to the mill and did not miss any time from work.

Mr. and Mrs. L. R. Foster of Wyoming, who have been visiting their son, Cliff Foster, and family on Cougar Bend, left last week for Salem where they expect to spend the winter in their trailer house.
