At first we thought we could only afford a small, "low price" car.

But then we discovered that Mercury's re-sale value stays so high, that over the years it costs about the same as a small car. So today we say

c'mon...we've loads of room!

and mean it! And what a difference it makes to have those optional power features.

A 4-way power seat, power steering, power brakes—and that wonderful no-shift Merc-O-Matic Drive! With a new 161 h.p. engine and ball-joint front suspension for complete driving ease!
