

Drive Carefully Don't Be 1 of 370

NEW YORK, June 30—A total of 370 Americans will die in highway accidents during the coming three-day Fourth week end, according to a prediction released today by the Association of Casualty and Surety Companies.

The Association's estimate, based upon "a conservative expansion of the accident rates of three-day Independence Day holidays in the past," breaks down the causes of the fatal accidents into six principal categories.

Speeding is expected to kill 123 persons; excessive use of alcohol will account for 82 more, both motorists and pedestrians; failure to keep to the right of the centerline, 37 deaths; failure to yield the right-of-way, 26 deaths; over-fatigued drivers or drivers actually asleep at the wheel, 23 deaths; miscellaneous causes, 79 deaths.

Liquor Stores Closed July 4-5 Holiday

State liquor stores and agencies will be closed Monday, July 5, as well as Sunday, both days by state law being legal holidays.

However, taverns and other licensees of the Oregon liquor control commission, including those selling liquor by the drink, need not close on either day unless they wish to, according to the commission. Private clubs which have master liquor permits may not sell bottled liquor containing more than 14 per cent alcohol by volume on Sunday or Monday, but other sales and service allowed by the club license will be permitted.

Mohair-Wool Moving to Market

The 1954 crop of wool and mohair is moving to market. The present crop is about normal buyers said. Wool is bringing 55 cents per pound and mohair 65 cents per pound.

The real price of everything is the toll and trouble of acquiring it.—Adam Smith.

CHRYSLER BREAKS WORLD STOCK CAR RECORD

World speed and endurance records for stock cars were broken when a 1954 Chrysler FirePower 235-horsepower V-8 completed a 24-hour continuous run with an average speed of 118.18 miles per hour for 2836.42 miles. Picture shows American

Automobile Association official Bill Vanderwater giving AAA champion Tony Bettenhausen the checkered flag ending the successful run at the Chrysler proving ground track at Chelsea, Michigan. Only 26 pit stops were made.

Stock Car Records Broken by Chrysler

CHELSEA, MICHIGAN—World speed and endurance records for stock cars were broken when a 1954 Chrysler Fire Power 235-horsepower V-8 completed a 24-hour continuous run with an average speed of 118.18 miles per hour for 2,836.42 miles.

The car was driven by a team of drivers headed by AAA championship driver Tony Bettenhausen, Tinly Park, Illinois. Regular Chrysler Corporation proving ground drivers spelled him at the wheel. The team members drove for two and three-hour periods as the run was regarded by Chrysler engineers primarily as an endurance test for the automobile.

The Chrysler New Yorker DeLuxe was a strictly stock automobile.

During the 24-hour grind, the Chrysler V-8, reached speeds in excess of 125 miles per hour and averaged some laps on the 4.7-mile track of over 124.1 miles per hour. Although 26 pit stops were made, the Chrysler broke the last previous Indianapolis stock car record of 2,157 miles in 24 hours by reaching that mark in approximately 19 hours.
